1. PRODUCT OVERVIEW

The Timex Women's Essex Ave 25mm Watch (Model T2M826PF) is a classic timepiece designed for everyday wear. It features a durable silver-tone brass case, a mother-of-pearl dial with full Arabic numerals, and a comfortable stainless steel expansion band. The watch also includes the Indiglo light-up dial for visibility in low-light conditions and is water-resistant up to 30 meters.

2. SETUP

2.1 Setting the Time

1. **Pull the Crown:** Gently pull the crown (the small knob on the side of the watch case) outwards to the time-setting position.
2. **Adjust the Time:** Turn the crown clockwise or counter-clockwise to move the hour and minute hands to the correct time.
3. **Push the Crown Back:** Once the time is set, push the crown back into its original position against the watch case. This will start the watch movement.

2.2 Adjusting the Expansion Band

The watch features a flexible expansion band designed to fit various wrist sizes. If the band is too loose or too tight, it may

require professional adjustment by a jeweler to remove or add links. The band is designed to stretch slightly to allow for easy wearing and removal over the hand.

3. OPERATION

3.1 Indiglo Night-Light

The Timex Indiglo night-light illuminates the entire watch dial for easy reading in low-light conditions. To activate the Indiglo feature, simply press and hold the crown (the time-setting knob) inwards. The light will remain on as long as the crown is pressed.

4. MAINTENANCE

4.1 Water Resistance

This watch is water-resistant to 30 meters (100 feet). This means it can withstand splashes or brief immersion in water. It is **not suitable** for swimming, bathing, or diving. Avoid pressing the crown while the watch is wet to prevent water entry.

4.2 Cleaning

To clean your watch, wipe it gently with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the finish or the watch components.

4.3 Battery Replacement

The watch uses one Lithium Metal battery (included). When the battery needs replacement, it is recommended to take the watch to an authorized Timex service center or a qualified jeweler to ensure proper battery installation and maintenance of water resistance.

5. TROUBLESHOOTING

- **Watch Not Running:**
 - Ensure the crown is fully pushed in against the watch case.
 - The battery may need replacement. Refer to section 4.3.
- **Time is Incorrect:**
 - Reset the time as described in section 2.1.
 - If the watch consistently loses or gains time, it may require servicing.
- **Indiglo Not Working:**
 - Ensure the crown is pressed firmly.
 - A low battery can affect Indiglo performance.
- **Band Pinches Wrist:**
 - The expansion band may require adjustment by a professional to remove or add links for a more comfortable fit.
