Monte Carlo 3MTR38TMO-L

Monte Carlo Mach Two 3MTR38TMO-L 38-inch Ceiling Fan Instruction Manual

INTRODUCTION

Thank you for purchasing the Monte Carlo Mach Two 3MTR38TMO-L 38-inch Ceiling Fan. This manual provides essential information for the safe installation, operation, and maintenance of your new ceiling fan. Please read these instructions thoroughly before beginning installation and retain them for future reference.

SAFETY INFORMATION

WARNING: To reduce the risk of fire, electric shock, or personal injury, always follow these safety guidelines.

- Ensure the power is turned off at the circuit breaker or fuse box before installation or servicing.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- The mounting structure must be capable of supporting the weight of the fan (approximately 19.3 pounds).
- Do not operate the fan with damaged blades or housing.
- Keep hands, clothing, and other objects clear of the fan blades when the fan is operating.
- This fan is designed for indoor use only.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Fan Motor Assembly
- Fan Blades (3)
- Downrod (4-inch, 1/2-inch Interior Diameter)
- Mounting Bracket
- Remote Control and Wall Control
- Light Kit (includes 1 bulb)

- Hardware Pack (screws, washers, wire nuts)
- Instruction Manual

SETUP AND INSTALLATION

Professional installation is recommended for optimal safety and performance. Ensure you have the necessary tools, including a screwdriver, wire strippers, and a ladder.

1. Mounting the Fan

Attach the mounting bracket to the ceiling junction box. Ensure the junction box is securely fastened to the building structure and can support the fan's weight. Feed the electrical wires through the center hole of the mounting bracket.

2. Wiring Connections

Connect the fan's electrical wires to the household wiring according to the wiring diagram provided in the separate wiring guide (if applicable) or standard electrical practices. Ensure all connections are secure and insulated with wire nuts.

3. Attaching the Downrod and Fan Body

Insert the downrod through the canopy and motor housing. Secure the downrod to the motor with the provided pin and screw. Carefully lift the fan assembly and hang it on the mounting bracket hook. Connect the remaining electrical wires as instructed.

4. Installing the Blades

Attach each of the three fan blades to the motor housing using the provided screws. Ensure all screws are tightened securely. The blades are precision balanced for wobble-free operation.

5. Installing the Light Kit

Connect the light kit wires to the fan motor wires as specified in the instructions. Secure the light kit to the bottom of the fan motor housing. Install the included bulb.

OPERATING INSTRUCTIONS

Your Monte Carlo Mach Two ceiling fan comes with both a hand-held remote control and a wall control for convenient operation.

Remote Control Operation

- **Fan Speed:** Use the speed buttons (typically 1, 2, 3) to select one of the three available fan speeds.
- **Fan Off:** Press the 'OFF' button to turn the fan off.
- **Light Control:** Press the 'LIGHT' button to turn the light on or off. Hold the 'LIGHT' button to dim or brighten the light (full-range light dimming).

Manual Reverse Switch

The fan features a manual reverse switch located on the fan motor housing. To change the direction of airflow (e.g., for summer cooling or winter heat circulation), turn off the fan, wait for the blades to stop completely, and then slide the switch to the desired position. Restart the fan.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

Cleaning

Periodically clean the fan to prevent dust buildup. Use a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish. Ensure the power is off before cleaning.

Blade Balancing

If the fan wobbles excessively, ensure all blade screws are tight. If wobbling persists, a blade balancing kit (sold separately) may be used to correct the balance. Refer to the balancing kit instructions for proper use.

TROUBLESHOOTING

Before attempting any repairs, ensure the power is turned off at the circuit breaker.

Problem	Possible Cause	Solution
Fan does not start	No power to fan; Loose wire connections; Remote control battery dead	Check circuit breaker/fuse; Verify all wire connections are secure; Replace remote control battery.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket	Tighten all blade screws; Use a blade balancing kit; Ensure mounting bracket is securely fastened.
Light does not work	Bulb faulty; Loose wire connections; Light kit switch off	Replace bulb; Check light kit wiring connections; Ensure light switch on remote/wall control is on.
Remote control not working	Dead battery; Incorrect pairing	Replace battery; Refer to remote control pairing instructions (if applicable).

SPECIFICATIONS

Feature	Detail
Model Number	3MTR38TMO-L
Brand	Monte Carlo
Collection Name	Mach Two
Fan Size	38 inches
Color	Titanium
Number of Blades	3
Blade Pitch	13 degrees
Motor Type	172 X 14 mm Torque-Induction
Number of Speeds	3
Control Method	Remote Control, Wall Control

Feature	Detail
Light Kit	Integrated, Dimmable (1 bulb included)
Voltage	120 Volts
Wattage	61.00 Watts
Air Flow Capacity	3973 Cubic Feet Per Minute
Mounting Type	Flush Mount
Material	Pewter/Stainless-Steel
Item Weight	19.3 Pounds
Certification	UL Certified
