# KERBL Handle Brush with Long Handle, 40 cm - Instruction Manual

Model: 29174

## 1. INTRODUCTION

This manual provides essential information for the proper use, maintenance, and care of your KERBL Handle Brush with Long Handle, 40 cm. Please read these instructions carefully before using the product to ensure optimal performance and longevity.

## 2. PRODUCT OVERVIEW

The KERBL Handle Brush is designed for effective cleaning across various applications. Its ergonomic design and durable materials ensure comfortable and efficient use.

This image displays the KERBL Handle Brush. It features a sturdy white plastic handle designed for an ergonomic grip, extending to

a length of 40 cm. The brush head is equipped with durable blue polyester bristles, suitable for various cleaning tasks.

## Key Features:

- Ergonomic plastic handle for comfortable grip.
- Durable blue polyester bristles for effective cleaning.
- Total length of 40 cm for extended reach.

## 3. SETUP

The KERBL Handle Brush requires minimal setup.

1. **Unpack:** Carefully remove the brush from its packaging.
2. **Inspect:** Check the brush for any signs of damage. If any damage is observed, do not use the product and contact customer support.
3. **Ready for Use:** The brush is now ready for its intended cleaning tasks.

## 4. OPERATING INSTRUCTIONS

The KERBL Handle Brush is versatile and can be used for various cleaning applications, including household cleaning, pet grooming areas, and reaching deep containers.

1. **Grip:** Hold the ergonomic handle firmly. The long handle provides extended reach for difficult-to-access areas.
2. **Application:** Apply the brush head to the surface requiring cleaning. For wet cleaning, apply appropriate cleaning solutions as needed.
3. **Cleaning Motion:** Use a scrubbing or sweeping motion to dislodge dirt and debris. The polyester bristles are designed for effective removal of various substances.
4. **Rinsing:** After cleaning, rinse the area thoroughly if using cleaning agents.

## 5. MAINTENANCE

Proper maintenance ensures the longevity and effectiveness of your brush.

- **Cleaning the Brush:** After each use, rinse the bristles thoroughly under running water to remove any trapped dirt, debris, or cleaning solution residue.
- **Drying:** Shake off excess water and allow the brush to air dry completely before storing. Hanging the brush by the hole in the handle can facilitate drying and prevent bristle deformation.
- **Storage:** Store the brush in a clean, dry place away from direct sunlight and extreme temperatures.
- **Avoid Harsh Chemicals:** Do not use strong solvents or abrasive cleaners on the brush, as this may damage the plastic handle or bristles.

## 6. TROUBLESHOOTING

If you encounter issues with your KERBL Handle Brush, consider the following:

- **Bristles are matted or bent:** Ensure the brush is cleaned and dried properly after each use. Avoid storing it in a way that compresses the bristles. Gentle reshaping with warm water may help.
- **Ineffective cleaning:** Ensure the bristles are free of debris. For stubborn dirt, consider using an appropriate cleaning solution in conjunction with the brush.

## 7. SPECIFICATIONS

Attribute	Detail
Brand	KERBL
Model Number	29174
ASIN	B001CLN6PM
EAN	4018653291740
Length	40 cm
