

JUWEL Samba 200

Juwel Samba 200 Ceiling Clothes Dryer Instruction Manual

Model: Samba 200 | Brand: JUWEL

INTRODUCTION

The Juwel Samba 200 is a versatile ceiling-mounted clothes dryer designed for efficient and space-saving laundry drying. Ideal for bathrooms, utility rooms, or sheltered balconies, this dryer offers a practical solution for hanging various laundry items, including large pieces like bedding. Its innovative design allows for continuous height adjustment and discreet storage when not in use.

SETUP AND INSTALLATION

The Juwel Samba 200 ceiling clothes dryer is designed for straightforward installation. It can be mounted on ceilings in various locations such as bathrooms, utility rooms, or covered outdoor areas like balconies.

Mounting Steps:

- Select Location:** Choose a suitable ceiling location that can support the weight of the dryer and wet laundry (up to 7 kg). Ensure adequate clearance for lowering and raising the dryer.
- Mark Drilling Points:** Position the dryer's chassis against the ceiling and mark the four mounting points.
- Drill Holes:** Drill pilot holes at the marked points. For drywall, insert the provided drywall anchors. For wood, drill appropriate pilot holes for the screws.
- Secure the Chassis:** Attach the dryer chassis to the ceiling using the four large threaded wood screws provided. Ensure the chassis is securely fastened.
- Rope Installation:** Follow the specific instructions in the included manual for threading and securing the pull cord mechanism. This cord allows for height adjustment.

OPERATING INSTRUCTIONS

The Juwel Samba 200 is designed for user-friendly operation, providing flexible drying options.

Using the Dryer:

- **Lowering the Dryer:** Use the practical pull cord with its innovative mechanism to continuously lower the clothes dryer to your desired height, up to 120 cm from the ceiling. The dryer will automatically lock in place at any height.
- **Extending Drying Arms:** Once lowered, manually extend the two drying arms outwards, similar to a butterfly opening.
- **Hanging Laundry:** The dryer offers approximately 9 or 18 meters of drying line, suitable for up to two washing machine loads. Its design is ideal for large items such as bed sheets and duvets.
- **Raising the Dryer:** After hanging laundry, use the pull cord to raise the dryer to its maximum height, allowing clothes to dry efficiently without obstructing floor space.
- **Retracting for Storage:** When not in use, the dryer can be partially or fully folded and raised back into its ceiling profile, making it almost invisible and saving space. The lines are protected from dirt within the frame when retracted.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Juwel Samba 200 clothes dryer.

- **Cleaning:** Wipe down the metal and plastic components with a damp cloth periodically to remove dust and dirt. Avoid abrasive cleaners.

- **Line Protection:** The drying lines are protected from dirt when the dryer is retracted into its frame. This feature helps keep the lines clean for your laundry.
- **Material Durability:** The dryer is constructed from rust-resistant materials and equipped with weather-resistant, stable plastic parts, minimizing the need for extensive maintenance.
- **Cord Inspection:** Periodically inspect the pull cord for any signs of wear or fraying. If damage is observed, contact customer support for replacement options.

TROUBLESHOOTING

This section addresses common issues you might encounter with your Juwel Samba 200 clothes dryer.

- **Difficulty with Pull Cord:** If the pull cord is difficult to manage or does not operate smoothly, check for any obstructions in the pulley mechanism. Ensure the cord is correctly threaded according to the installation instructions. Avoid forcing the cord.
- **Dryer Not Lowering/Raising Properly:** Verify that the automatic locking mechanism is not jammed. Ensure there is no excessive weight on the dryer that might hinder its movement. The maximum weight capacity is 7 kg.
- **Dryer Height Issues:** If the dryer remains too high even when fully lowered, consider the ceiling height. The dryer lowers up to 120 cm from the ceiling. For very high ceilings, an additional tool or step stool may be required to comfortably reach the lines.
- **Drying Arms Not Extending:** Ensure the arms are free from obstructions and can pivot freely. Apply gentle, even pressure when extending them.

TECHNICAL SPECIFICATIONS

| | |
|--------------------------------|------------------------------------------------|
| Brand | JUWEL |
| Model Number | Samba |
| Color | Aluminium |
| Product Dimensions (L x W x H) | 200.03 x 12.95 x 8.89 cm |
