IMPORTANT SAFETY INFORMATION

- Handle with care to prevent damage to the mirror or injury.
- Keep out of reach of children.
- Ensure the power cord is not pinched or damaged.
- Do not immerse the mirror or power cord in water or other liquids.
- Unplug the mirror when not in use or before cleaning.

SETUP

The JERDON LT856N mirror comes pre-assembled for your convenience. Simply place it on a stable, flat surface such as a vanity or bathroom counter.

1. Unpack the mirror and all components from the packaging.
2. Place the mirror on a clean, dry, and level surface.
3. Plug the power cord into a standard electrical outlet.

OPERATING INSTRUCTIONS

Powering On/Off and Adjusting Lighting

The mirror features halo lighting around its perimeter for optimal visibility.

- To turn the light **ON** or **OFF**, locate the switch on the base of the mirror and toggle it.
- The mirror provides bright, even illumination for various grooming and makeup tasks.

Magnification Options

This mirror offers two magnification levels for versatile use.

- One side provides **1X magnification**, ideal for general skincare and makeup application.
- The other side offers **7X magnification**, perfect for detailed tasks such as tweezing, eyeliner application, or close-up grooming.

Swivel Function

The mirror head can be rotated 360 degrees to easily switch between magnification levels and adjust to your preferred viewing angle.

- Gently rotate the mirror head to switch between the 1X and 7X sides.
- Adjust the tilt of the mirror to achieve the most comfortable and effective angle for your needs.

CARE AND MAINTENANCE

- **Cleaning:** To clean the mirror surface, wipe gently with a soft, damp cloth. Do not use abrasive cleaners or chemical sprays, as these may damage the finish or mirror surface.
- **Storage:** Store the mirror in a cool, dry place when not in use.
- **Handling:** Always handle the mirror by its base or frame to avoid leaving fingerprints on the mirror surface.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on	Mirror is not plugged in or power outlet is not working.	Ensure the power cord is securely plugged into a functional electrical outlet. Check the outlet with another device.
Mirror appears unstable	Placed on an uneven surface.	Relocate the mirror to a flat, stable surface.
Difficulty rotating mirror head	Mechanism might be stiff.	Apply gentle, even pressure when rotating. Avoid excessive force.
