Melitta #4 Cone Coffee Filters

Melitta #4 Cone Coffee Filters Instruction Manual

Model: #4 Cone Coffee Filters
Brand: Melitta

Introduction

Melitta #4 White Cone Coffee Filters are designed to enhance your coffee brewing experience. These filters feature Microfine Flavor Enhancing Perforations and a double crimped design for reliable use. They are compatible with all 8-12 cup cone coffee makers and pour-over devices. Made from chlorine-free paper, these filters are FSC Certified for responsible forestry and BPI Certified for commercial compostability.

Features

- **Flavor-Enhancing Microfine Perforations:** Designed to allow the full flavor of your coffee to filter through for a rich, flavorful cup.
- **Burst-Resistant Double Crimped Design:** Ensures durability and prevents bursting during the brewing process.
- **Convenient Measure Markings:** Integrated 2-tablespoon guides assist in consistent coffee ground measurement.
- **Certified Sustainable and Compostable:** FSC Certified for responsible forestry and BPI Certified for commercial compostability. Packaged in 100% recycled paperboard.
- **Premium Quality, Universal Fit:** Thicker, chlorine-free paper traps impurities for a smooth, clean cup. Gluten-free and Kosher certified. Fits all 8-12 cup cone coffee makers.

Setup and Installation

1. **Prepare the Filter:** Locate the crimped edges on the filter. Fold these edges to ensure the filter sits properly in your coffee maker's filter basket. This step helps prevent the filter from collapsing during brewing.
2. **Place in Brewer:** Insert the folded filter into the cone-shaped filter basket of your 8-12 cup coffee maker or pour-over device. Ensure it is seated snugly against the walls of the basket.

Operating Instructions

1. **Add Coffee Grounds:** Spoon your desired amount of coffee grounds into the Melitta #4 Cone Coffee Filter. Utilize the integrated measure markings (each mark equals 2 tablespoons) for consistent brewing.
2. **Brew Coffee:** Follow your coffee maker's or pour-over device's instructions to begin the brewing process. The Microfine Flavor Enhancing Perforations will ensure optimal extraction.
3. **Enjoy:** Once brewing is complete, remove the filter with spent grounds and enjoy your freshly brewed coffee.

The Melitta #4 Cone Coffee Filter features internal measure markings to help achieve consistent coffee strength.

Maintenance and Disposal

After brewing, carefully remove the filter from the coffee maker or pour-over device. The Melitta #4 Cone Coffee Filters are BPI Certified for commercial compostability, allowing for environmentally friendly disposal in appropriate facilities. They are also made from 100% recycled paperboard packaging.

Troubleshooting

Grounds in Coffee

If you find coffee grounds in your brewed coffee, ensure the filter is properly seated in the filter basket and that the crimped edges are folded correctly. The double crimped design is intended to prevent bursting, but improper placement can lead to grounds escaping.

Slow Drip or Overflow

A slow drip or overflow during brewing can indicate that the coffee grounds are too fine, or too many grounds were used, leading to clogging. Adjust your grind size or the amount of coffee used. Ensure the filter is not folded in a way that obstructs the flow.

Specifications

Material	Paper (Chlorine-Free)
Shape	Conical
Compatibility	All 8-12 Cup Cone Coffee Makers and Pour-Overs
Count	40 Count (Pack of 12), 480 Total Filters
Certifications	FSC Certified, BPI Certified (Commercial Compostable), Kosher Certified
Special Features	Microfine Flavor Enhancing Perforations, Double Crimped Design, Measure Markings
Origin	Made in USA
