## STANLEY 1-92-064

# STANLEY 2000 Series Toolbox User Manual

Model: 1-92-064

## PRODUCT OVERVIEW

---

The STANLEY 2000 Series 12.5-inch Toolbox (Model 1-92-064) is designed for organizing and transporting tools and small parts. It features durable construction with metal latches and hinges for enhanced longevity and weight capacity. The toolbox includes integrated lid organizers and a portable tote tray for efficient storage and quick access to frequently used items.

### Key Features:

- **Metal Latches:** Provides extra weight capacity and increased durability compared to plastic latches.
- **Metal Hinge:** Connects the lid to the body, offering additional strength and extended life.
- **Two Top Lid Organizers:** Ideal for storing small components such as screws, electrical connectors, and plumbing fittings.
- **Removable Tote Tray:** Convenient for holding commonly used tools like knives and tapes, allowing for quick access.
- **Soft Grip Handle:** Designed for comfortable carrying, even when the toolbox is loaded with heavier items.

## SETUP GUIDE

---

Upon receiving your STANLEY 2000 Series Toolbox, follow these steps to prepare it for use:

1. **Unpack:** Carefully remove the toolbox from its packaging. Inspect for any signs of damage during transit.
2. **Familiarize:** Open the metal latches and lift the lid to access the main compartment and the removable tote tray. Explore the two top lid organizers by flipping open their yellow covers.
3. **Clean (Optional):** Wipe down the interior and exterior surfaces with a dry or slightly damp cloth to remove any dust or debris from manufacturing or shipping.

## OPERATING INSTRUCTIONS

---

This section details how to effectively use the features of your STANLEY 2000 Series Toolbox for tool storage and organization.

### 1. Opening and Closing the Toolbox:

- To open, pull the metal latches outwards from the main body of the toolbox.
- Lift the lid upwards using the integrated handle.
- To close, lower the lid until it aligns with the base, then push the metal latches inwards until they securely click into place.

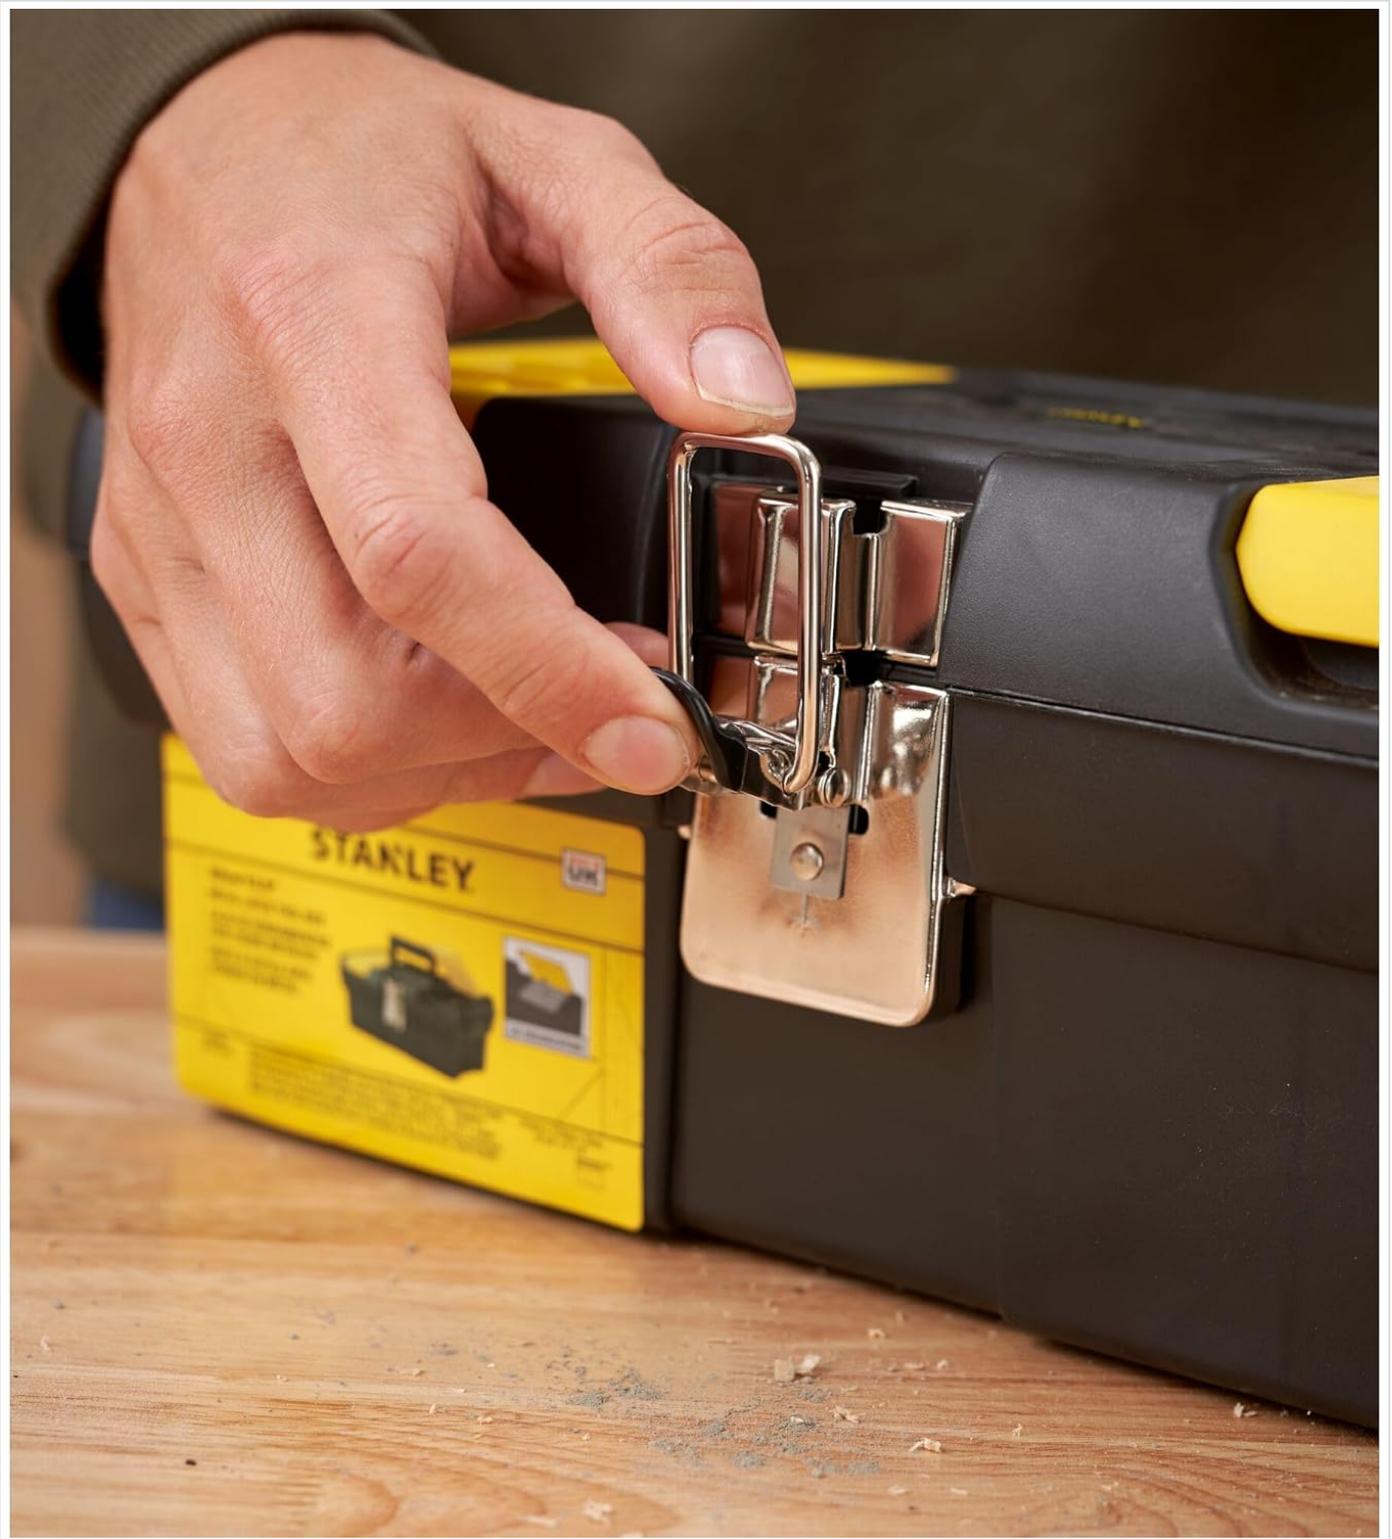

Figure 3: A close-up view of the durable metal latch, demonstrating its secure closing mechanism.

## 2. Utilizing Lid Organizers:

- The two yellow covers on the top of the lid conceal separate compartments.
- Flip open these covers to store small items such as screws, nuts, bolts, washers, and other small hardware.
- Ensure covers are securely closed before transport to prevent contents from spilling.

Figure 4: A user accessing the small parts stored within one of the lid organizers, demonstrating its utility for organizing fasteners.

### 3. Using the Portable Tote Tray:

- The toolbox includes a removable tote tray that rests inside the main compartment.
- This tray is ideal for organizing frequently used hand tools like screwdrivers, pliers, and measuring tapes.
- The tray can be lifted out to access the larger storage area beneath it.
- When finished, place the tote tray back into its designated position within the main compartment.

Figure 5: The toolbox with its lid open, showing various tools stored in the main compartment and the removable tote tray positioned in front, ready for use.

Figure 6: A user demonstrating the organization of tools within the portable tote tray, highlighting its convenience for quick access.

## MAINTENANCE

Proper maintenance will ensure the longevity and optimal performance of your STANLEY 2000 Series Toolbox.

- **Cleaning:** Regularly wipe down the interior and exterior surfaces with a damp cloth to remove dust, dirt, and debris. For stubborn grime, a mild soap solution can be used, followed by thorough drying.
- **Latch and Hinge Care:** Periodically check the metal latches and hinges for smooth operation. If they become stiff, apply a small amount of silicone spray or light lubricant to the moving parts.
- **Storage:** Store the toolbox in a dry environment to prevent rust on metal components and to maintain the integrity of the plastic.
- **Avoid Overloading:** While designed for durability, avoid exceeding the recommended weight capacity to prevent stress on the latches, hinges, and handle.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your toolbox and provides simple solutions.

Problem	Possible Cause	Solution
Latches are difficult to close or open.	Dirt or debris in the latch mechanism; lack of lubrication.	Clean the latches thoroughly. Apply a small amount of lubricant (e.g., silicone spray) to the moving parts.

Problem	Possible Cause	Solution
Tote tray sticks or is hard to remove.	Debris in the main compartment; tools are improperly placed.	Clear any obstructions from the main compartment. Ensure tools are neatly arranged in the tray.
Lid does not close flush.	Overfilled main compartment or tote tray; obstruction near hinges.	Remove excess items. Check for any objects preventing the lid from closing completely.

## SPECIFICATIONS

Attribute	Detail
Brand	STANLEY
Model Number	1-92-064
Size	12.5 Inch Toolbox
Material	Metal, Plastic
Color	Black, Yellow
Product Dimensions (L x W x H)	4.93"L x 2.02"W x 0.28"H
Item Weight	1.19 pounds
