Edushape 545300

Edushape Floating Blocks Instruction Manual

Model: 545300

Introduction

Thank you for choosing Edushape Floating Blocks. This set of foam blocks is designed to provide engaging and educational play for young children, both in and out of the bath. The blocks float and can stick to smooth, wet surfaces, encouraging creativity, fine motor skills, and logical reasoning.

Safety Information

- Always supervise children during bath time play.
- Inspect blocks regularly for any signs of wear or damage. Discontinue use if damaged.
- While made of foam, discourage children from chewing on the blocks to prevent material degradation.
- Keep packaging materials away from children to avoid choking hazards.

What's in the Box

Your Edushape Floating Blocks set includes:

- Assorted Foam Blocks (15 pieces)
- 1 Floating Platform
- 1 Mesh Storage Bag

Image: All components of the Edushape Floating Blocks set, including various shaped foam blocks, the green floating platform, and the mesh storage bag.

Setup

The Edushape Floating Blocks require minimal setup. Simply remove all components from the packaging. The blocks are ready for play immediately.
For bath time use, ensure the bath surface (tub walls, tiles) is clean and smooth for optimal sticking.

Operating Instructions

In the Bath:

- **Floating Play:** Place the green floating platform in the water. The foam blocks will float on their own or can be stacked on the platform to create floating structures.
- **Sticking to Surfaces:** Wet the foam blocks thoroughly. They will adhere to smooth, wet surfaces like bath walls or tiles, allowing for vertical building and creative designs.

Out of the Bath:

The foam blocks can also be used for dry play. Children can stack, build, and arrange the blocks on any flat surface, fostering imagination and fine motor skills.

Maintenance

Cleaning:

After each use, especially in the bath, rinse the blocks thoroughly with clean water to remove any soap residue or bath products.

Drying and Storage:

To prevent mildew and prolong the life of the blocks, ensure they are completely dry before storing. Place all blocks and the floating platform into the provided mesh storage bag. Hang the bag in a well-ventilated area to allow for air circulation and complete drying.

Troubleshooting

Problem	Possible Cause	Solution
Blocks do not stick to bath surfaces.	Surface is not smooth, not wet enough, or has soap residue.	Ensure the surface is smooth (e.g., ceramic tile, fiberglass tub), thoroughly wet the blocks and the surface, and clean any soap film from the surface.
Blocks show signs of mildew.	Blocks were not dried completely before storage.	Always ensure blocks are fully dry by hanging them in the mesh bag in a well-ventilated area after each use. Clean mildew with a mild soap solution and rinse thoroughly.
Blocks are damaged from chewing.	Child has chewed on the foam material.	While the foam is soft, discourage chewing. If significant pieces are torn off, discontinue use to prevent ingestion.

Specifications

- **Product Dimensions:** 12 x 3.75 x 11.5 inches
- **Item Model Number:** 545300
- **Material Type:** Foam
- **Item Weight:** 15.8 ounces
- **Target Gender:** Unisex
