Nuvo 60/245

Nuvo Lighting 60/245 One Light Flush Mount User Manual

Model: 60/245

1. INTRODUCTION

Thank you for choosing the Nuvo Lighting 60/245 One Light Flush Mount. This fixture is designed to provide ambient lighting in various indoor settings. Its traditional style, featuring a brushed nickel finish and white glass, complements a wide range of interior decors. This manual provides essential information for the safe and proper installation, operation, and maintenance of your new lighting fixture.

Image 1.1: The Nuvo Lighting 60/245 One Light Flush Mount. This image displays the fixture's brushed nickel base and spherical white glass shade, designed for flush mounting on a ceiling.

2. SAFETY INFORMATION

Please read and understand all instructions before beginning installation. Failure to follow these instructions may result in electric shock, fire, or other hazards that could cause injury or property damage.

- **WARNING:** This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
- Always disconnect power at the main circuit breaker or fuse box before beginning installation or performing any

maintenance.

- Consult a qualified electrician if you are unsure about the installation process.
- This fixture is rated for Damp locations, making it suitable for bathrooms or covered outdoor areas where moisture may be present but not directly exposed to water.
- **CAUTION:** The fixture may contain fiberglass insulation. Wear appropriate personal protective equipment, including eye protection, gloves, and long sleeves, during installation to prevent skin and eye irritation from fiberglass fibers. Ensure proper ventilation.
- Ensure all electrical connections are secure and comply with local codes and ordinances.
- Do not exceed the maximum wattage specified for the bulb.

3. PACKAGE CONTENTS

Carefully unpack your fixture and inspect for any damage. Keep all packaging materials until you are sure all parts are accounted for and the fixture is in working order.

- One (1) Nuvo Lighting 60/245 One Light Flush Mount Fixture (Brushed Nickel/White Glass)
- Mounting Hardware (typically includes mounting strap, screws, wire nuts)

Note: Bulb(s) are not included with this fixture. Please refer to the 'Operating Instructions' section for recommended bulb types.

4. INSTALLATION

This section outlines the general steps for installing the flush mount fixture. For detailed, step-by-step instructions and diagrams, please refer to the official installation manual provided by Nuvo Lighting.

Required Tools (not included): Screwdriver, Wire Strippers, Pliers, Electrical Tape, Safety Glasses, Gloves.

4.1 Pre-Installation

1. **Turn off power:** Locate the circuit breaker or fuse box that controls the power to the light fixture location. Turn off the power completely. Verify power is off using a voltage tester.
2. **Prepare the mounting location:** Ensure the electrical box is securely mounted and capable of supporting the fixture's weight.
3. **Unpack and inspect:** Carefully remove the fixture from its packaging and inspect all components for damage.

4.2 Mounting the Fixture

1. **Attach mounting strap:** Secure the mounting strap to the electrical box using the provided screws. Ensure the strap is oriented correctly for the fixture.
2. **Make electrical connections:** Connect the fixture's wires to the house wires according to standard electrical codes (black to black, white to white, ground to ground). Use wire nuts to secure connections.
3. **Secure the fixture:** Carefully push the wired fixture up to the mounting strap. Secure the fixture to the mounting strap using the provided screws. *Note: Some installations may require longer mounting machine screws than those supplied.*
4. **Install the glass shade:** Carefully attach the white glass shade to the fixture base. Ensure it is securely fastened but do not overtighten.

For a detailed visual guide and specific instructions, please refer to the manufacturer's official installation manual:

5. OPERATING INSTRUCTIONS

The Nuvo Lighting 60/245 is a simple flush mount fixture designed for straightforward operation.

5.1 Bulb Installation and Replacement

1. **Ensure power is off:** Before installing or replacing a bulb, always turn off the power to the fixture at the circuit breaker.
2. **Remove glass shade:** Carefully unfasten and remove the white glass shade to access the bulb socket.
3. **Insert bulb:** Screw in an A19 type bulb into the socket. The fixture supports a maximum of 60 watts. While designed for incandescent bulbs, LED bulbs can be used, but ensure they are suitable for enclosed fixtures to prevent overheating.
4. **Reattach glass shade:** Once the bulb is securely in place, carefully reattach the glass shade.
5. **Restore power:** Turn the power back on at the circuit breaker.

6. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your lighting fixture.

- **Cleaning:** To clean the fixture, ensure power is off. Wipe the brushed nickel finish with a soft, dry cloth. For the glass shade, use a mild glass cleaner applied to a cloth, then wipe the glass. Avoid abrasive cleaners or solvents that could damage the finish.
- **Bulb Replacement:** Refer to Section 5.1 for instructions on safely replacing the bulb.
- **Periodic Inspection:** Periodically check all electrical connections and mounting hardware to ensure they remain secure.

7. TROUBLESHOOTING

If you experience issues with your Nuvo Lighting 60/245 fixture, consult the following table for common problems and solutions.

Problem	Possible Cause	Solution
Light does not turn on.	No power to fixture. Loose wire connection. Defective bulb.	Check circuit breaker/fuse. Ensure all wire connections are secure (power off first). Replace bulb.
LED bulb overheats and turns off.	LED bulb not suitable for enclosed fixtures.	Replace with an LED bulb specifically rated for enclosed fixtures, or use an incandescent bulb within wattage limits.
Skin/eye irritation during installation.	Contact with fiberglass insulation.	Wear appropriate PPE (gloves, safety glasses, long sleeves) during installation. Clean affected areas thoroughly. Seek medical attention if irritation persists.
Fixture appears loose after installation.	Mounting screws not fully tightened or too short.	Ensure power is off. Tighten mounting screws. If screws are too short, acquire longer machine screws suitable for your electrical box.

8. SPECIFICATIONS

Detailed technical specifications for the Nuvo Lighting 60/245 One Light Flush Mount.

Feature	Specification
Brand	Nuvo Lighting
