## Vicks V1900BX

# Vicks Waterless Menthol Vaporizer User Manual

Model: V1900BX

Brand: Vicks

## 1. INTRODUCTION

The Vicks Waterless Menthol Vaporizer (Model V1900BX) provides soothing menthol vapors without the need for water, offering a convenient and mess-free solution for temporary relief from cold and congestion symptoms. Its compact design and silent operation make it ideal for bedside use, enhancing comfort during rest.

### Key Features:

- Waterless operation: Eliminates spills and refilling.
- Silent operation: Ensures undisturbed rest.
- Compact design: Perfect for bedside tables or small spaces.
- Soothing nightlight: Provides a gentle glow.
- Adjustable vapor strength: Features 3 settings for personalized comfort.
- Uses Vicks VapoPads: Each pad provides up to 8 hours of menthol vapors.

## 2. PACKAGE CONTENTS

- 1 x Vicks Waterless Menthol Vaporizer (Model V1900BX)
- 5 x Vicks Menthol VapoPads

## 3. PRODUCT OVERVIEW

# Product Dimensions (inches)

Figure 1: Vicks Waterless Menthol Vaporizer, a compact device designed for easy use.

Figure 2: The vaporizer with its lid open, showing the slot for inserting a VapoPad. A green indicator light is visible when the device is powered on.

Figure 3: The Vicks Waterless Vaporizer positioned on a bedside table, demonstrating its compact size and suitability for personal use.

## 4. SETUP

---

- 1. Unpack:** Carefully remove the vaporizer and VapoPads from the packaging.
- 2. Open Lid:** Gently lift the top cover of the vaporizer to reveal the VapoPad slot.
- 3. Insert VapoPad:** Open one Vicks VapoPad packet and slide the pad into the designated slot. Ensure it sits flat.
- 4. Close Lid:** Close the top cover securely.
- 5. Position:** Place the vaporizer on a flat, stable surface, such as a bedside table, away from direct sunlight or heat sources.
- 6. Plug In:** Insert the power cord into a standard electrical outlet. The green indicator light will illuminate, signifying the device is powered on and beginning to heat the VapoPad.

## 5. OPERATING INSTRUCTIONS

---

- Power On/Off:** The vaporizer does not have a dedicated on/off switch. To turn it on, plug the power cord into an electrical outlet. To turn it off, unplug the device from the outlet.
- Adjust Vapor Strength:** The vaporizer features a slider switch on the side with three settings (I, II, III) to adjust the menthol vapor intensity. Slide the switch to your desired level of vapor release.
- Nightlight Function:** The green indicator light serves as a soothing nightlight when the device is powered on.
- Vapor Release:** Once powered on, the device will begin to heat the VapoPad, releasing soothing menthol vapors into the air.

## 6. MAINTENANCE

- Replacing VapoPads:** Each VapoPad provides up to 8 hours of soothing menthol vapors. When the scent diminishes, or after approximately 8 hours of use, replace the old pad with a new one. To replace, unplug the device, open the lid, remove the used pad, insert a new one, and close the lid.
- Cleaning:** To clean the exterior of the vaporizer, wipe it with a soft, damp cloth. Ensure the device is unplugged before cleaning.

Figure 4: Various types of Vicks VapoPads refills, including menthol, sleepy time comfort, and calming lavender vapors, compatible with the vaporizer.

## 7. SAFETY INFORMATION

---

- **CAUTION: Hot Surface.** The heating element inside the vaporizer can become hot during operation. Avoid touching the internal components when the device is plugged in or recently unplugged.
- **DO NOT IMMERSE IN WATER.** This device is waterless and should never be submerged in water or any other liquid.
- Keep out of reach of children and pets.
- Use only Vicks VapoPads with this device.
- Do not block the vapor outlet.
- Unplug the device when not in use or before cleaning.

## 8. TROUBLESHOOTING

---

- **No Vapor/Weak Scent:**

- Ensure the device is properly plugged into a working electrical outlet and the green light is on.
- Check if the VapoPad is correctly inserted.
- Replace the VapoPad if it has been used for more than 8 hours or if the scent has diminished.
- Adjust the vapor strength setting to a higher level (II or III).

- **Nightlight is Too Bright:**

- The nightlight intensity is not adjustable. Consider repositioning the vaporizer if the light is disruptive.

- **Device Not Turning On:**

- Verify that the power cord is securely plugged into both the device and the electrical outlet.
- Test the outlet with another appliance to ensure it is functional.
