Motorola 89228N

Motorola H680 Bluetooth Headset User Manual

MODEL: 89228N

Introduction

This manual provides comprehensive instructions for the Motorola H680 Bluetooth Headset, Model 89228N. It covers setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device. The Motorola H680 is designed for those seeking a subtle and attractive headset, offering first-rate design and an elegant small size.

Product Overview

The Motorola H680 Bluetooth Headset features a sleek design with intuitive controls for ease of use.

The image displays the Motorola H680 Bluetooth Headset. It features a sleek black body with gold trim accents, an adjustable ear hook for secure fit, and clearly visible control buttons on the side.

Key Features:

- **Easy Controls:** Features accessible on/off, call, and volume buttons for convenient operation.
- **TrueComfort Design:** Includes a discreet, interchangeable ear hook that rotates for additional stability and ergonomic ear bud cushion options for a customized fit.
- **Secure Fit:** The headset conveniently snaps securely into place.
- **Universal Compatibility:** Tested to work with over 200 compatible Bluetooth-enabled phones from more than 15 brands, including Motorola, Nokia, Samsung, Sony-Ericsson, and LG.

Setup

1. Charging the Headset

Before first use, fully charge your Motorola H680 headset. Connect the charger (not included, typically a micro-USB charger) to the headset's charging port. The indicator light will illuminate to show charging status and will turn off or change color once fully charged, typically within 1-2 hours.

2. Pairing with Your Device

1. Ensure the headset is charged and turned off.
2. Press and hold the **power button** on the headset until the indicator light flashes rapidly (e.g., blue and red), indicating it is in pairing mode.
3. On your mobile phone or Bluetooth-enabled device, navigate to the Bluetooth settings and enable Bluetooth.
4. Search for new devices. The headset should appear as "Motorola H680" or a similar name.
5. Select "Motorola H680" from the list of found devices.
6. If prompted for a passcode or PIN, enter **0000** (four zeros).
7. Once successfully paired, the indicator light on the headset will stop flashing rapidly and may remain solid blue or flash slowly, indicating a successful connection.

Operating the Headset

Power On/Off

- **To Power On:** Press and hold the **power button** until the indicator light illuminates.
- **To Power Off:** Press and hold the **power button** until the indicator light turns off.

Making and Receiving Calls

- **Answering a Call:** When a call comes in, press the **call button** once.
- **Ending a Call:** During a call, press the **call button** once.
- **Making a Call:** Dial the number on your phone. If the headset is connected, the audio will automatically transfer to the headset.
- **Redialing Last Number:** Double-press the **call button**.

Volume Control

Use the dedicated **volume buttons** on the side of the headset to increase or decrease the call volume during a conversation or when listening to audio.

Wearing the Headset

The Motorola H680 comes with a TrueComfort interchangeable ear hook that can be rotated to fit either ear. Experiment with the included ear bud cushion options to find the most comfortable and secure fit for extended wear.

Maintenance

Cleaning

To maintain the headset's appearance and functionality, regularly wipe it with a soft, dry, lint-free cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the surface and internal components.

Storage

When not in use, store the headset in a cool, dry place, away from direct sunlight, extreme temperatures, and excessive

moisture. Protect it from dust and physical impact.

Troubleshooting

Problem	Possible Solution
Headset won't turn on.	Ensure the headset is fully charged. Connect it to a charger and wait for the indicator light to confirm charging.
Cannot pair headset with device.	Verify the headset is in pairing mode (rapidly flashing indicator light). Ensure Bluetooth is enabled on your device and it is searching for new devices. Move the headset closer to your device. Delete any previous "Motorola H680" pairings from your device's Bluetooth list and try pairing again. Restart both the headset and your device.
No audio or poor audio quality during calls.	Check the volume levels on both the headset and your connected device. Ensure the headset is properly connected and selected as the audio output device on your phone. Move closer to your connected device to reduce interference. Avoid physical obstructions between the headset and your device.
