# Bburago Lamborghini Huracan Performante 1:18 Diecast Model Car Instruction Manual

## INTRODUCTION

---

This manual provides essential information for the Bburago Lamborghini Huracan Performante 1:18 scale diecast model car. This highly detailed replica is designed for display and collection, featuring opening parts and intricate interior and engine bay details. Please read these instructions carefully to ensure proper handling and longevity of your model.

**Important Safety Information:** This product is a scale model and not intended as a toy for young children. It contains small parts that may pose a choking hazard. Recommended for ages 18 months and up, as per manufacturer's minimum age, but generally considered a collector's item for older enthusiasts. For external use only.

## 1. SETUP

---

### 1.1 Unboxing

Carefully remove the model car from its packaging. The packaging is designed to protect the model during transit. Retain the original packaging for future storage or transport.

## 2. OPERATING THE MODEL FEATURES

---

This diecast model features several movable parts designed to replicate the real vehicle. Handle these parts gently to prevent damage.

### 2.1 Opening Doors

Gently pull the doors outward from the body to open them. Avoid forcing them beyond their natural range of motion.

### 2.2 Opening Hood and Engine Cover

The front hood and rear engine cover can be opened to reveal detailed compartments. Locate the small seams and gently lift them. Exercise caution as these parts are often delicate.

## 3. MAINTENANCE

---

### 3.1 Cleaning

To clean the model, use a soft, dry microfiber cloth to gently wipe away dust. For stubborn dirt, slightly dampen the cloth with water (no harsh chemicals or cleaning agents) and gently wipe, then immediately dry with a clean, dry cloth. Avoid excessive moisture, especially around decals or delicate parts.

### 3.2 Storage

When not on display, store the model in its original packaging or a dedicated display case to protect it from dust, impacts, and environmental factors. Ensure it is stored in a cool, dry place.

## 4. TROUBLESHOOTING

---

### 4.1 Stiff Movable Parts

If doors, hood, or engine cover feel stiff, do not force them. They may require gentle manipulation to loosen. A very small amount of silicone lubricant (specifically designed for plastics and metals) can be applied to hinges if necessary, but use sparingly and wipe away any excess.

### 4.2 Dust Accumulation

Regular dusting with a soft brush or microfiber cloth is recommended. For dust in hard-to-reach areas, use a can of compressed air, holding it upright and at a distance to avoid moisture or propellant residue.

### 4.3 Minor Damage

In case of minor detached parts, model-specific adhesive can be used for reattachment. Consult a hobby specialist if unsure.
