Alno A8060-PA

Alno A8060-PA Classic Traditional Tissue Holder User Manual

Model: **A8060-PA** | Brand: **Alno**

1. Product Overview

The Alno A8060-PA Classic Traditional Tissue Holder is a finely crafted bathroom accessory designed to hold standard toilet paper rolls. It features a polished antique finish, offering a timeless aesthetic that complements traditional decor. Alno is renowned for its high-quality decorative hardware, and this tissue holder exemplifies their commitment to design and durability.

2. Package Contents

Upon opening the package, please ensure all components are present and undamaged. The Alno A8060-PA Classic Traditional Tissue Holder package typically includes:

- One (1) Alno A8060-PA Classic Traditional Tissue Holder assembly
- Mounting hardware (screws, anchors)
- Installation template (if provided)

Note: Specific mounting hardware may vary. Always use appropriate hardware for your wall type.

3. Setup and Installation

Proper installation is crucial for the stability and longevity of your tissue holder. Please follow these steps carefully.

Tools Required:

- Pencil
- Measuring Tape
- Level
- Drill with appropriate drill bit (e.g., 1/4 inch for drywall anchors)
- Screwdriver (Phillips head recommended)

Installation Steps:

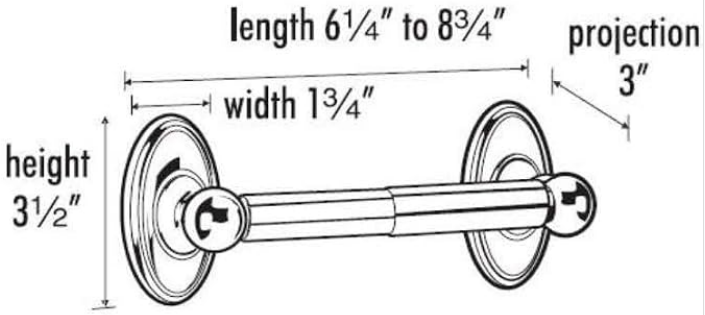

1. **Choose Location:** Select a suitable location on your wall, ensuring it is at a comfortable height and accessible for changing tissue rolls. Use a level to ensure the mounting points will be horizontal.
2. **Mark Drilling Points:** Hold the tissue holder assembly against the wall at the desired location. Use a pencil to mark the centers of the mounting holes on both base plates. Alternatively, use the provided installation template if available.
3. **Drill Pilot Holes:** Using the appropriate drill bit for your wall material (e.g., 1/4 inch for drywall anchors), carefully drill pilot holes at the marked points.
4. **Insert Anchors (if needed):** If drilling into drywall, gently tap the plastic wall anchors into the pilot holes until they are flush with the wall surface.
5. **Mount the Holder:** Align the mounting holes on the tissue holder's base plates with the drilled holes or anchors. Insert the mounting screws and tighten them securely with a screwdriver. Do not overtighten, as this may damage the wall or the fixture.
6. **Verify Stability:** Gently tug on the installed tissue holder to ensure it is firmly attached to the wall and does not wobble.

4. Operating Instructions

Using your Alno tissue holder is straightforward:

1. **Loading a Roll:** To load a new toilet paper roll, gently pull one of the spring-loaded arms outwards. Place the toilet paper roll onto the spindle, then release the arm to secure the roll in place.
2. **Removing a Roll:** To remove an empty or partially used roll, repeat the process of pulling one arm outwards and

sliding the roll off the spindle.

5. Maintenance and Care

To maintain the beauty and finish of your Alno tissue holder, follow these care guidelines:

- **Cleaning:** Clean regularly with a soft, damp cloth. For stubborn spots, use a mild soap solution and immediately dry with a clean, soft cloth.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, ammonia-based products, or strong chemical solvents, as these can damage the polished antique finish.
- **Living Finish:** The polished antique finish is a "living finish" and may naturally patina or change coloration over time with use. This is a natural process that enhances the unique beauty of the hardware.
- **Periodic Check:** Periodically check the mounting screws for tightness and re-tighten if necessary to ensure the holder remains secure.

6. Troubleshooting

If you encounter any issues with your tissue holder, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Tissue holder feels loose or wobbly.	Mounting screws are loose or anchors are not secure.	Tighten mounting screws. If the issue persists, consider using stronger wall anchors or relocating the holder.
Finish appears dull or discolored.	Natural patina of the "living finish" or residue from cleaning products.	Clean with a soft, damp cloth and dry immediately. Avoid harsh chemicals. The natural patina is part of the product's design.
Roll does not spin freely.	Roll is too wide or spindle is obstructed.	Ensure you are using a standard-sized toilet paper roll. Check for any debris or obstruction on the spindle.

7. Specifications

Attribute	Detail
Model Number	A8060-PA
Brand	Alno
Finish	Polished Antique
Material	Nickel, Metal (Brass base as per product sheet)

Attribute	Detail
