**Hot Wheels 43224-6849**

# Hot Wheels 2008 New Models '69 Ford Torino Talladega Die-Cast Car Instruction Manual

Model: 43224-6849

## INTRODUCTION

---

This instruction manual provides essential information for the Hot Wheels 2008 New Models '69 Ford Torino Talladega die-cast car. This collectible 1:64 scale model is designed for display and light play. Please read this manual to ensure proper handling and care of your Hot Wheels vehicle.

## SETUP

---

The Hot Wheels '69 Ford Torino Talladega die-cast car comes pre-assembled and ready for immediate use. No assembly or battery installation is required.

## Unboxing

Carefully remove the die-cast car from its packaging. The packaging is designed to protect the vehicle during transit. Retain packaging for collector value if desired.

## OPERATING

This Hot Wheels die-cast car operates manually. It is designed for rolling play on smooth surfaces.

### Manual Operation

- Place the car on a flat, smooth surface.
- Gently push the car forward or backward to initiate movement.
- Avoid excessive force or dropping the car to prevent damage.

## MAINTENANCE

Proper maintenance ensures the longevity and appearance of your die-cast car.

## Cleaning

- Use a soft, dry cloth to gently wipe away dust and fingerprints.
- For stubborn dirt, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- Ensure the car is completely dry before storing.

## Storage

- Store the die-cast car in a cool, dry place away from direct sunlight to prevent fading of paint and decals.
- Keep it in a display case or its original packaging to protect it from dust and accidental damage.

## TROUBLESHOOTING

---

While die-cast cars are generally robust, minor issues can occur. Here are some common concerns and solutions.

### Wheels Not Rolling Smoothly

- **Check for debris:** Inspect the axles and wheels for any lint, hair, or small particles that might be obstructing movement. Gently remove any obstructions.
- **Axle alignment:** Ensure the wheels are properly seated on their axles. Avoid bending or forcing the axles.

### Paint Chips or Scratches

- Die-cast cars are susceptible to paint damage from impacts or rough handling.
- Minor chips can sometimes be touched up with model paint, but this is at the owner's discretion and may affect collector value.
