

BaBylissPRO BABP100S

BaBylissPRO Porcelain Ceramic 1 Inch Curling Iron Instruction Manual

Model: BABP100S

1. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **DANGER:** Keep away from water. As with most electrical appliances, electrical parts are electrically live even when the switch is off.
- Always unplug the appliance immediately after using.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- **WARNING:** To reduce the risk of burns, electrocution, fire, or injury to persons:
 - An appliance should never be left unattended when plugged in.
 - Do not pull, twist, or wrap line cord around appliance.
 - This appliance should not be used by, on, or near children or individuals with certain disabilities.
 - Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
 - Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged, or dropped into water.
 - Keep the cord away from heated surfaces.
 - Never use while sleeping.
 - Never drop or insert any object into any opening.
 - Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.

- Do not use an extension cord with this appliance.
- This appliance is hot when in use. Do not let eyes or skin touch heated surfaces.
- Do not place the appliance on any surface while it is operating.
- Do not touch the hot barrel of the curling iron. Use the handle.

2. PRODUCT OVERVIEW

The BaBylissPRO Porcelain Ceramic 1 Inch Curling Iron (Model BABP100S) is designed for professional hair styling, offering advanced porcelain ceramic technology. This technology ensures exceptional heat distribution, increased far-infrared heat, and ion production, which collectively contribute to superior performance compared to standard ceramic tools.

The porcelain ceramic barrel eliminates hot spots, providing consistent heat across the entire surface. This even heat distribution, combined with negative ion generation, helps to reduce static and frizz, leaving hair smooth and shiny. The far-infrared heat penetrates the hair shaft, promoting healthy-looking curls and waves.

3. SETUP AND PREPARATION

1. **Unpack:** Carefully remove the curling iron from its packaging. Ensure all components are present and undamaged.
2. **Placement:** Place the curling iron on a heat-resistant surface, away from flammable materials. The integrated safety stand can be used to keep the hot barrel elevated.
3. **Plug In:** Insert the power cord into a standard electrical outlet. Ensure your hands are dry before plugging in the appliance.
4. **Hair Preparation:** Ensure hair is clean, dry, and free of tangles. For best results and heat protection, apply a heat protectant spray evenly through your hair. Section your hair into manageable portions using clips.

4. OPERATING INSTRUCTIONS

The BaBylissPRO Porcelain Ceramic Curling Iron features 30 variable temperature settings, allowing you to select the optimal heat for your hair type and desired style, up to 430°F (221.1°C).

1. **Power On:** Slide the ON/OFF switch to the 'ON' position. The temperature indicating light will illuminate.
2. **Select Temperature:** Rotate the temperature dial to your desired heat setting. Lower settings are suitable for fine or damaged hair, while higher settings are for thicker or coarser hair. Allow the iron a few moments to reach the selected temperature.

Image: A close-up view of the curling iron's handle, showing the ON/OFF switch and the adjustable temperature dial with multiple heat settings.

3. Curling Technique:

- Take a small section of hair (approximately 1-2 inches wide).
 - Open the clamp and place the hair section between the clamp and the barrel, starting a few inches from the roots.
 - Close the clamp and wrap the hair around the barrel, away from your face, ensuring the ends are securely held by the clamp.
 - Hold for 5-10 seconds, depending on your hair type and desired curl intensity. For looser waves, hold for a shorter duration.
 - Release the clamp and gently slide the curling iron out of the curl.
 - For a more natural look, alternate the direction of curling for different sections of hair.
4. **Cooling Curls:** Allow curls to cool completely before touching or brushing them. This helps to set the curl and ensure longevity.
 5. **Power Off:** After use, slide the ON/OFF switch to the 'OFF' position and unplug the appliance from the electrical outlet.

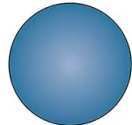

BaBylissPRO®

Which tool is best for achieving your desired curl?

THE CURL:

Tight spiral curls	Vintage curls, textured waves	Traditional curls, defined waves	Medium loose curls, beachy waves	Big voluminous curls, loose relaxed waves
				

BARREL SIZE:

1/2"	3/4"	1"	1 1/4"	1 1/2"

5. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your BaBylissPRO curling iron.

- **Cleaning:** Ensure the appliance is unplugged and completely cool before cleaning. Wipe the barrel and handle with a damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- **Storage:** When not in use, store the curling iron in a cool, dry place. Do not wrap the cord around the appliance, as this can damage the cord. Store the cord loosely coiled.
- **Cord Care:** Regularly inspect the power cord for any signs of damage. If the cord becomes twisted, untwist it before use. Never yank or pull the cord from the outlet.

6. TROUBLESHOOTING

- **Appliance not heating:**
 - Ensure the curling iron is properly plugged into a working electrical outlet.
 - Check that the ON/OFF switch is in the 'ON' position.
 - Verify the temperature dial is set to a heat level above 'OFF'.

- **Curls not holding:**

- Increase the temperature setting (if appropriate for your hair type).
- Hold the hair section on the barrel for a longer duration.
- Ensure hair is completely dry before curling.
- Allow curls to cool completely before brushing or styling.
- Consider using a styling product designed to enhance curl hold.

- **Hair snagging:**

- Ensure hair sections are smooth and detangled before wrapping.
- Check for any debris or residue on the barrel that might be causing friction.

7. SPECIFICATIONS

Feature	Detail
Model Number	BABP100S
Product Dimensions	12 x 1.25 x 3 inches
Item Weight	1 Pound
Barrel Size	1 inch
Material Type	Porcelain Ceramic
Max Temperature Setting	430°F (221.1°C)
Power Source	Corded Electric
UPC	074108072658
