Koolatron WC18MG

Koolatron 18-Bottle Slim Dual Zone Wine Cooler

Model: WC18MG

Brand: Koolatron

INTRODUCTION

Thank you for choosing the Koolatron 18-Bottle Slim Dual Zone Wine Cooler. This appliance is designed to provide an optimal environment for storing your wine collection, featuring dual temperature zones for different wine types and quiet thermoelectric cooling. Please read this manual thoroughly before operating your wine cooler to ensure proper use, maximum efficiency, and safety.

This manual contains important information regarding the installation, operation, maintenance, and troubleshooting of your Koolatron wine cooler. Keep this manual for future reference.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Read all instructions before using the appliance.
- Do not touch cold surfaces immediately after the unit has been plugged in.
- Ensure the appliance is properly grounded.
- Do not operate the appliance with a damaged cord or plug.
- Keep ventilation openings clear of obstruction.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- Unplug the appliance before cleaning or performing any maintenance.

PRODUCT FEATURES

- **Dual Zone Cooling:** Separately controlled temperature zones for optimal storage of red and white wines. The upper zone accommodates up to 8 bottles, and the lower zone holds up to 10 bottles.
- **Thermoelectric Technology:** Utilizes advanced thermoelectric cooling for efficient operation with

minimal vibration, preserving wine sediment.

- **UV Protective Glass Door:** Double-paned mirrored glass door blocks harmful UV rays, protecting wine quality.
- **Soft Interior Lighting:** Gently illuminates your wine collection for easy viewing.
- **Freestanding Design:** Allows for flexible placement in various home or office settings.
- **Removable Racks:** Facilitates easy loading and organization of bottles.
- **Adjustable Leveling Legs:** Ensures stable and level placement on uneven surfaces.
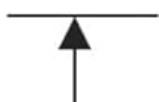

DOUBLE PANED GLASS DOOR BLOCKS UV RAYS
Internal fan maintains optimal temperature throughout to protect wine and preserve flavour

Detailed view of the Koolatron wine cooler's internal components, including the thermoelectric cooling fan, airtight door seal, removable wire racks, and adjustable leveling legs for stable placement.

DIMENSIONS

The double-paned glass door of the wine cooler is designed to block harmful UV rays, protecting the integrity and flavor of your wine.

SETUP

Unpacking

Carefully remove all packaging materials, including the foam base and any tape holding accessories in place. Inspect the wine cooler for any shipping damage. Report any damage to your retailer immediately.

Placement

This wine cooler is designed for freestanding installation only. Do not recess or build it into a cabinet. Place the unit on a flat, solid surface strong enough to support the unit when fully loaded. Ensure adequate air circulation around the unit; allow at least 5 inches (12.7 cm) of space on the sides and back, and 10 inches (25.4 cm) at the top.

The Koolatron wine cooler is designed for freestanding placement, offering flexibility in your home or bar area.

Leveling

It is crucial for the wine cooler to be level for proper operation and door alignment. Adjust the leveling legs at the bottom of the unit by turning them clockwise to raise or counter-clockwise to lower. Use a spirit level to ensure the unit is perfectly level.

Power Connection

Before plugging in, allow the unit to stand upright for at least 2 hours. Connect the power cord to a dedicated 115V AC, 60Hz grounded electrical outlet. Do not use extension cords or adapter plugs.

OPERATING INSTRUCTIONS

Temperature Control

The Koolatron wine cooler features a digital control panel for setting temperatures in both the upper and lower zones.

- **Upper Zone:** Ideal for white and sparkling wines. Temperature range: 54-66°F (12-18°C).
- **Lower Zone:** Ideal for red wines. Temperature range: 46-66°F (8-18°C).
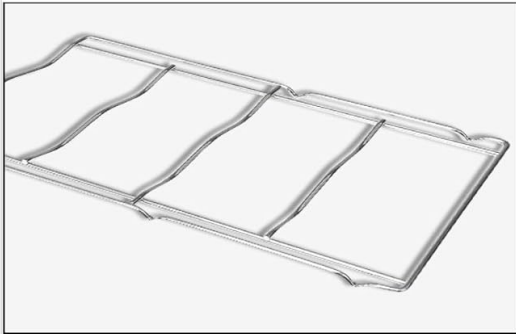

Use the touch controls on the front panel to adjust the desired temperature for each zone. The display will show the current temperature. Allow several hours for the unit to reach the set temperature after initial setup or temperature changes.

THERMOELECTRIC COOLING

AIRTIGHT DOOR SEAL

REMOVABLE RACKS

ADJUSTABLE LEVELING LEGS

The one-touch digital control panel allows precise temperature adjustments for both the upper and lower cooling zones.

Loading Bottles

The wine cooler is designed to hold standard 750ml wine bottles. The upper zone can hold up to 8 bottles, and the lower zone can hold up to 10 bottles. Carefully slide bottles onto the removable wire racks. For optimal air circulation, avoid overcrowding the shelves.

The interior of the wine cooler, with its door open, showing how bottles are stored on the removable racks.

RECOMMENDED SERVING TEMPERATURE

Red wine
55-65°F
(12-19°C)

White wine
48-54°F
(9-12°C)

Sparkling wine
45-47°F
(7-8°C)

The removable racks are designed to fit standard 750ml wine bottles, ensuring secure storage.

Recommended Serving Temperatures

For the best enjoyment of your wines, consider these recommended serving temperatures:

- **Red Wine:** 55-65°F (12-19°C)
- **White Wine:** 48-54°F (9-12°C)
- **Sparkling Wine:** 45-47°F (7-8°C)

MAINTENANCE

Cleaning

Always unplug the wine cooler before cleaning. Clean the interior and exterior surfaces with a soft cloth and a mild detergent solution. Do not use abrasive cleaners or solvents. The removable racks can be washed with warm soapy water and dried thoroughly before reinserting.

Door Seal

Regularly check the door seal for any signs of damage or wear. A tight seal is essential for maintaining optimal temperature and energy efficiency. Clean the door gasket with a damp cloth and mild soap.

Defrost System

This unit features a manual defrost system. If frost builds up on the interior cooling plate, unplug the unit and allow the frost to melt naturally. Place a towel at the bottom to absorb water. Once defrosted, wipe the interior dry before plugging the unit back in.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Wine cooler does not operate	No power; Plug not fully inserted; Circuit breaker tripped.	Check power supply; Ensure plug is secure; Reset circuit breaker.
Temperature is not cold enough	Door not closed properly; Excessive door openings; Unit placed in direct sunlight or near heat source; Overloaded with bottles.	Ensure door is sealed; Reduce frequency of door openings; Relocate unit; Reduce bottle load.
Unit is noisy	Unit is not level; Fan obstruction; Normal operating sounds.	Adjust leveling legs; Check for obstructions around fan; Some fan noise is normal for thermoelectric units.
Door does not close properly	Unit not level; Door gasket dirty or damaged; Bottles obstructing closure.	Level the unit; Clean or inspect gasket; Rearrange bottles.
