TX T3C303

TX T3C303 400 Series Perpetual Weekly Calendar Watch User Manual

Model: T3C303

INTRODUCTION

Thank you for choosing the TX T3C303 400 Series Perpetual Weekly Calendar Watch. This manual provides essential information for the proper setup, operation, and maintenance of your timepiece. Please read these instructions carefully to ensure optimal performance and longevity of your watch.

PRODUCT OVERVIEW

The TX T3C303 watch features a sophisticated design combined with advanced functionality. Key features include:

- Proprietary Six-Hand Movement:** Equipped with four independent motors for precise function control.
- Perpetual Weekly Calendar:** Automatically adjusts for day, month, and date, accurately displaying the week at a glance until the year 2100.
- Durable Construction:** Features a solid stainless steel case and bracelet, with a virtually scratch-proof sapphire crystal.
- Enhanced Visibility:** Super LumiNova indices provide clear readability in low light conditions.
- Water Resistance:** Water resistant to 100 meters (330 feet), suitable for snorkeling and swimming.
- German Designed Quartz Movement:** Ensures reliable and accurate timekeeping.

The image displays the TX T3C303 watch's retail packaging, featuring a black box, a branded watch cushion, and the included instruction manual.

SETUP

Before initial use, ensure the watch is properly set to your local time and date.

Setting the Time

1. Pull the crown out to the furthest position.
2. Rotate the crown to move the hands clockwise until the correct time is displayed. Ensure AM/PM is correctly set if your watch has a 24-hour indicator.
3. Push the crown back into its normal operating position.

Setting the Perpetual Weekly Calendar

The TX T3C303 features a perpetual calendar that automatically adjusts for day, month, and date. Once the correct time is set, the calendar functions will align automatically. No manual adjustment for odd/even months or leap years is required until the year 2100.

1. Refer to your specific model's detailed instructions for any sub-dial adjustments if applicable.
2. Ensure the time is set accurately, as the calendar relies on the main time setting for its perpetual

function.

OPERATING INSTRUCTIONS

Your TX T3C303 watch is designed for straightforward operation once set.

Timekeeping

The watch continuously displays the current time. The proprietary six-hand movement ensures accurate timekeeping.

Reading the Weekly Calendar

The innovative weekly date window allows for the display of a complete seven-day span, providing a clear overview of the week's dates and corresponding days. Consult the watch face for the specific layout of the weekly calendar display.

MAINTENANCE

Proper care will help maintain the appearance and function of your TX watch.

Cleaning

- Wipe the watch case and bracelet with a soft, dry cloth regularly to remove dust and smudges.
- For stainless steel, a slightly damp cloth can be used, followed by immediate drying.
- Avoid using harsh chemicals or abrasive materials, as these can damage the finish and sapphire crystal.

Water Resistance

Your watch is water resistant to 100 meters (330 feet). This makes it suitable for:

- Splashes and rain
- Showering
- Swimming
- Snorkeling

Important: It is **not** suitable for diving. Do not operate the crown or pushers while the watch is wet or submerged.

Battery Replacement

As a quartz movement watch, it is powered by a battery. When the watch stops or its functions become erratic, it may indicate a low battery. Battery replacement should be performed by a qualified watch technician to ensure proper sealing and water resistance.

TROUBLESHOOTING

If you encounter issues with your TX T3C303 watch, consider the following common solutions:

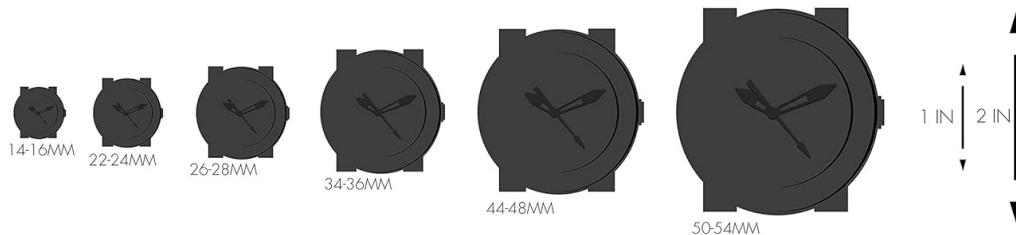

- **Watch Not Running:** Check if the crown is pushed in completely. If it is, the battery may need replacement.
- **Incorrect Time/Date:** Refer to the "Setting the Time" and "Setting the Perpetual Weekly Calendar" sections to reset.

- **Erratic Movement:** This could indicate a low battery. Seek professional battery replacement.

For persistent issues, please contact customer support or a certified watch repair center.

SPECIFICATIONS

Model Number	T3C303
Case Diameter	44 Millimetres
Band Material Type	Stainless Steel
Band Colour	Silver
Watch Movement Type	Quartz
Water Resistance	100 meters (330 feet)
