ELEY 1041

Eley Wall-Mount Garden Hose Reel Model 1041 User Manual

Brand: ELEY | Model: 1041

1. INTRODUCTION

The Eley Wall-Mount Garden Hose Reel Model 1041 is a commercial-duty hose reel designed for exceptional durability and ease of use. Constructed from solid aluminum-alloy and stainless-steel hardware, it offers superior corrosion resistance and is backed by an industry-leading 10-year No-Leak, No-Rust, No-Break guarantee. This reel is 100% drinking water safe and can be configured for parallel or perpendicular hose pull, adapting to various outdoor spaces.

Figure 1.1: Eley Wall-Mount Garden Hose Reel Model 1041. This image displays the complete hose reel unit, highlighting its robust construction and design.

2. SETUP AND INSTALLATION

The Eley Wall-Mount Garden Hose Reel is designed for straightforward installation on various surfaces, including wood-stud, masonry, or stone walls. All necessary hardware is included. The unique design allows for two mounting orientations: parallel or perpendicular to the wall, providing flexibility for your specific needs.

2.1. Mounting Options

The reel can be assembled to pull the hose out either parallel or perpendicularly from the wall. This configuration is determined during the initial assembly process.

This reel does either configuration.
You decide during reel assembly.

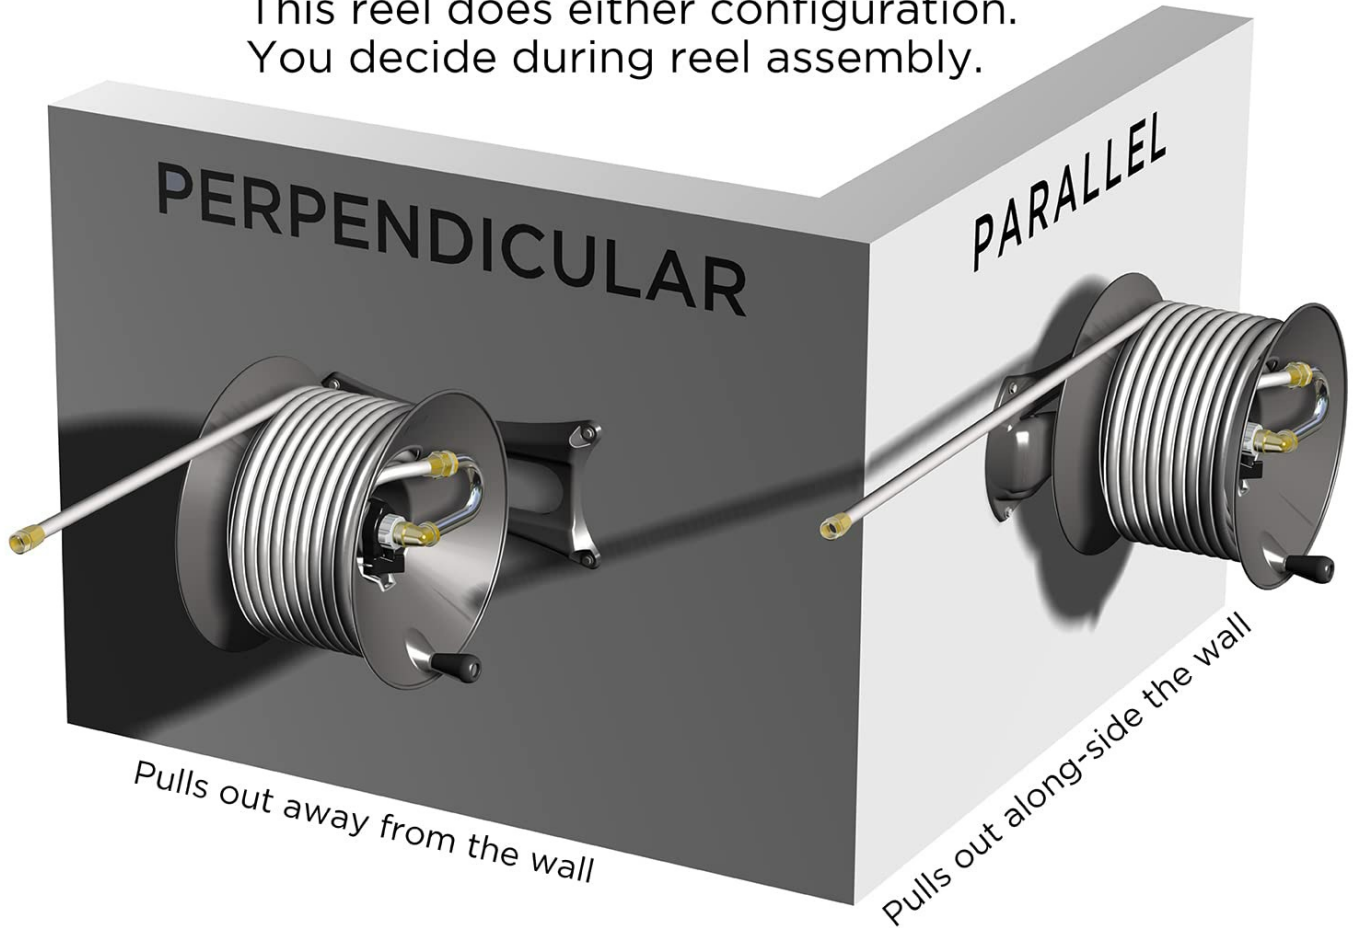

Figure 2.1: Perpendicular vs. Parallel Mounting. This diagram illustrates how the hose reel can be configured to pull the hose away from the wall (perpendicular) or alongside the wall (parallel).

2.2. Installation Process

The installation process is designed to be quick and minimize impact on your home. Fasteners are supplied for various wall types, including brick, masonry, and wood structures. For siding, special standoffs are provided to prevent damage during fastening. For detailed visual instructions on unboxing and installation, please refer to the official product video below:

3. OPERATING INSTRUCTIONS

The Eley Wall-Mount Garden Hose Reel is designed for smooth and effortless operation. Its user-friendly features ensure convenient hose management.

3.1. Hose Extension and Retraction

To extend the hose, simply pull it from the reel. The durable axle bushings ensure smooth rotation. To retract the hose, use the full-palm grip, free-spin crank handle to wind the hose back onto the reel.

Figure 3.1: Eley Hose Reel with Hose. This image shows the hose reel mounted on a wall with a hose neatly wound around it, demonstrating its practical application.

3.2. Cam-Lever Brake

The proprietary cam-lever brake allows you to control unwanted hose roll-out, keeping the hose securely in place when not in use or when only a portion is needed.

4. MAINTENANCE

The Eley Wall-Mount Garden Hose Reel is built for longevity with minimal maintenance required. Its robust construction materials ensure durability in various weather conditions.

4.1. General Care

The reel features a durable powder-coat finish designed to withstand extreme weather conditions and resist fading, cracking, and peeling. Regularly wipe down the reel with a damp cloth to remove dirt and debris, preserving its appearance and functionality.

4.2. Moving Parts

The durable axle bushings are designed to keep the reel spinning smoothly for years. No specific lubrication is typically required under normal operating conditions. If you notice any issues with smoothness, ensure no debris is obstructing the moving parts.

5. TROUBLESHOOTING

While the Eley Wall-Mount Garden Hose Reel is designed for reliable performance, should you encounter any issues, consider the following general troubleshooting steps. For more specific problems, please refer to the comprehensive user manual PDF available online or contact ELEY customer support.

- **Hose not retracting smoothly:** Check for kinks in the hose or debris obstructing the reel mechanism. Ensure the cam-lever brake is disengaged.
- **Leaks from connections:** Verify all connections are securely tightened. The reel's internal plumbing is designed to be leak-free, so external connections are the most common source of leaks.
- **Reel feels unstable:** Re-check the mounting hardware to ensure all screws are properly tightened into the studs or appropriate anchors.

6. SPECIFICATIONS

Feature	Detail
Brand	ELEY
Model Number	1041
Material	Aluminum
Color	Bronze
Product Dimensions (L x W x H)	20 x 9 x 19 inches
Item Weight	20 Pounds
Hose Capacity	Holds up to 125 ft. of 5/8" hose or 100 ft. of 3/4" hose
Warranty	10-Year No-Leak, No-Rust, No-Break Guarantee

Warren Eley

Eley Corporation, [pronounced 'ee-lee'], is a Nebraska-born, family-owned company that has been designing and providing commercial-duty garden hose, hose reels, and watering tools since our start in 1990. Growing up in rural farm & ranch country, we quickly learned the importance and value of quality-built equipment.

By focusing on these small-town values, ELEY® has grown into one of America's most respected and leading brands of outdoor watering products. The three founding brothers still manage the organization, personally ensuring a Midwestern-style commitment to product quality and customer support.
