## INSTALLATION INSTRUCTIONS (SETUP)

---

This faucet is designed for a 3-hole, widespread deck-mount installation. A detailed installation manual is included with your purchase. Please follow all instructions carefully to ensure proper function and to prevent damage.

1. **Prepare the Sink:** Ensure the sink deck is clean and free of debris. The faucet requires three mounting holes, typically 8 to 16 inches apart.
2. **Mount the Spout:** Insert the faucet spout through the center hole on the sink deck. Secure it from underneath with the provided washer and mounting nut.
3. **Mount the Handles:** Insert the hot and cold handles through their respective outer holes. Secure them from underneath with washers and mounting nuts.
4. **Connect Water Lines:** Attach the hot and cold water supply lines to the corresponding inlets on the faucet. Ensure all connections are tight to prevent leaks.
5. **Test for Leaks:** Once installed, slowly turn on the water supply and check all connections for any signs of leakage.

*Note: Professional installation is recommended if you are unfamiliar with plumbing procedures.*

## OPERATING INSTRUCTIONS

The KB1793ALLS faucet features two lever handles for controlling hot and cold water, and a swivel spout for directional water flow.

- **Water Flow Control:** Turn the left handle counter-clockwise for hot water and the right handle counter-clockwise for cold water. Turn clockwise to shut off. The 1/4 turn mechanism allows for quick and precise adjustments.
- **Temperature Adjustment:** Mix hot and cold water by adjusting both handles simultaneously to achieve the desired temperature.
- **Spout Swivel:** The high-arc spout can be rotated 360 degrees to direct water flow to different areas of the sink, providing flexibility for washing and rinsing.

## MAINTENANCE

Proper care and maintenance will ensure the longevity and appearance of your Kingston Brass faucet.

- **Cleaning:** Clean the faucet regularly with a soft cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or polishes that can damage the finish.
- **Aerator Maintenance:** Periodically unscrew the aerator from the spout and clean any accumulated debris or mineral deposits. This helps maintain optimal water flow.
- **Leak Prevention:** The Dura seal washerless cartridge is designed for long-term, leak-free use. If a leak occurs, consult the troubleshooting section or contact customer support.

## TROUBLESHOOTING

If you encounter issues with your faucet, try the following steps before contacting customer support.

- **Low Water Flow:** Check if the aerator is clogged with debris or mineral buildup. Clean the aerator as described in the Maintenance section. Ensure water supply valves are fully open.
- **Leaks from Spout:** If water drips from the spout when the faucet is off, the cartridge may need to be inspected or replaced. Refer to the detailed installation manual for cartridge access.
- **Leaks from Handle Base:** Check the connections underneath the sink. Ensure all mounting nuts and water supply lines are securely tightened. Do not overtighten.
- **Difficulty Turning Handles:** If handles are stiff, ensure no debris is obstructing their movement. Avoid forcing the handles.

If problems persist after attempting these troubleshooting steps, it is recommended to consult a qualified plumber or contact Kingston Brass customer support.
