

HON H895LS.L.S

HON 800 Series 42-Inch Storage Cabinet with Lateral File User Manual

Model: H895LS.L.S

1. PRODUCT OVERVIEW

The HON 800 Series Storage Cabinet is a robust and functional unit designed for office environments. This 42-inch wide cabinet features hinged doors for concealed storage and two lateral file drawers for organizing legal and letter-sized documents. It is constructed from steel and includes independent locking mechanisms for enhanced security.

Image 1.1: Front view of the HON 800 Series 42-Inch Storage Cabinet in Charcoal. The cabinet features two upper hinged doors and two lower lateral file drawers.

2. SAFETY INFORMATION

- Always use caution when handling heavy objects. This cabinet weighs approximately 228 pounds.
- Ensure proper placement on a level surface to prevent tipping. The cabinet includes leveling glides for stability.
- Keep hands and fingers clear of doors and drawers when opening or closing to avoid pinching.
- Do not overload drawers or shelves, as this can affect stability and functionality.

3. SETUP

The HON 800 Series Storage Cabinet is delivered fully assembled and requires no additional assembly. Upon receipt, follow these steps:

1. **Unpacking:** Carefully remove all packaging materials. Inspect the cabinet for any shipping damage.
2. **Placement:** Position the cabinet in its desired location. Ensure the floor surface is capable of supporting the cabinet's weight (228 lbs) plus contents.
3. **Leveling:** The cabinet is equipped with leveling glides. Adjust these glides as necessary to ensure the cabinet is stable and level on uneven floors. This is crucial for proper door and drawer operation.

4. OPERATING INSTRUCTIONS

4.1. Hinged Doors

The upper section of the cabinet features two hinged doors that conceal storage space. To open, turn the key in the lock (if locked) and pull the door handle. To close, push the doors firmly until they latch. Ensure no items obstruct the door path.

4.2. Lateral File Drawers

The lower section contains two lateral file drawers designed for legal and letter-sized documents. To open, pull the drawer handle. To close, push the drawer firmly until it is fully seated. Avoid opening more than one drawer at a time to maintain cabinet stability.

4.3. Locking Mechanism

The cabinet features an independent lock that secures both the hinged doors and the lateral file drawers. Insert the key into the lock cylinder and turn to engage or disengage the locking mechanism. Always remove the key after locking to prevent unauthorized access.

5. MAINTENANCE

To maintain the appearance and functionality of your HON 800 Series Storage Cabinet:

- **Cleaning:** Wipe surfaces with a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspection:** Periodically check all moving parts, such as drawer slides and door hinges, for smooth operation.
- **Leveling:** Re-check the cabinet's levelness periodically, especially if it has been moved or if the floor settles.

6. TROUBLESHOOTING

- **Doors/Drawers not closing properly:**

- Check for obstructions inside the cabinet or drawer.
- Ensure the cabinet is level by adjusting the glides.
- Verify that the lock mechanism is not partially engaged.

- **Key not turning in lock:**

- Ensure the key is fully inserted.
- Check if any drawers or doors are slightly ajar, preventing the lock from engaging or disengaging.

- **Cabinet feels unstable:**

- Re-adjust the leveling glides to ensure all four corners are firmly on the floor and the cabinet is stable.
- Ensure the cabinet is not overloaded, especially with heavy items placed high up.

7. SPECIFICATIONS

Feature	Detail
Model Number	H895LS.L.S
