

Fisher 9720950000

Fisher Stereo Headphones User Manual

Model: 9720950000

INTRODUCTION

This manual provides instructions for the proper setup, operation, and maintenance of your Fisher Stereo Headphones, Model 9720950000. These headphones are designed for clear audio reproduction and comfortable use, featuring robust construction, swivel ear cups, and padded earphones for extended listening sessions. They are equipped with both 1/4 inch stereo and 1/8 inch plugs for versatile connectivity.

PRODUCT OVERVIEW

The Fisher Stereo Headphones are designed for durability and sound quality. Key components include:

- **Padded Headband:** For comfortable fit during prolonged use.
- **Swivel Ear Cups:** Allow for flexible positioning and storage.
- **Padded Earphones:** Provide comfort and sound isolation.
- **Coiled Audio Cable:** Durable and flexible, with dual plug options.
- **1/4 inch Stereo Plug:** For connecting to larger audio equipment.
- **1/8 inch Plug:** For connecting to standard audio jacks.

SETUP

1. **Connect to Audio Source:** Identify the appropriate audio jack on your device (e.g., desktop, laptop, gaming console). The headphones come with both a 1/4 inch stereo plug and an 1/8 inch

plug. Use the plug that matches your device's input.

2. **Adjust Headband:** Gently extend or retract the headband slides to fit comfortably over your head. The padded headband should rest securely without excessive pressure.
3. **Position Ear Cups:** Ensure the padded ear cups fully cover your ears. The swivel mechanism allows for minor adjustments to achieve optimal comfort and sound isolation.

OPERATING INSTRUCTIONS

1. **Power On Audio Source:** Ensure your audio device is powered on and playing audio.
2. **Adjust Volume:** Control the audio volume directly from your connected device. These headphones are designed for true stereo sound reproduction.
3. **Sound Isolation:** The over-ear design and padded ear cups provide sound isolation, enhancing your listening experience by reducing external noise.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the exterior of the headphones. For the padded ear cups, a slightly damp cloth with mild soap can be used, but ensure they are completely dry before use. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the headphones in a clean, dry place away from direct sunlight and extreme temperatures. The swivel ear cups allow for a more compact storage.
- **Cable Care:** Avoid sharply bending or pulling the coiled cable. Store it neatly to prevent tangles and damage.
- **General Care:** These headphones feature robust construction. However, avoid dropping them or subjecting them to strong impacts to maintain their integrity.

TROUBLESHOOTING

- **No Sound:**
 - Ensure the audio cable is fully plugged into both the headphones and the audio source.
 - Check the volume level on your audio source.
 - Test the headphones with a different audio source to rule out device issues.
- **Poor Sound Quality (Distortion, Low Volume):**
 - Verify the audio cable connection is secure.
 - Adjust the volume on your audio source.
 - Ensure the audio source is playing high-quality audio.
 - Check for any damage to the cable or plugs.
- **Uncomfortable Fit:**
 - Adjust the headband and swivel ear cups until a comfortable position is found.
 - Ensure the ear cups are properly seated over your ears.

SPECIFICATIONS

Feature	Detail
Brand	Fisher
Model Number	9720950000
