Setup

1. **Place the Game Board:** Unfold the game board and place it in the center of the playing area.
2. **Position the Lion:** Place the Lion pawn on its designated starting space, usually marked on the board.
3. **Distribute Monkey Pawns:** Each player chooses a monkey pawn and places it on their respective starting space.
4. **Prepare Banana Tokens:** Place all banana tokens in a central pile within easy reach of all players.
5. **Shuffle Memory Cards:** Shuffle the memory cards thoroughly and place them face down in their designated spots on the game board or in a draw pile.

How to Play (Game Rules)

The game is played in turns, with players rolling the die and performing actions based on the result. The objective is to collect the most bananas without waking the lion.

Player Turn Sequence:

1. **Roll the Die:** The active player rolls the die.
2. **Move Monkey:** Move your monkey pawn according to the number rolled.
3. **Perform Action:**
    - If you land on a space with a memory card, flip it over. If it matches a previously seen card or a specific

condition, you might collect bananas.
    - If you land on a banana space, collect a banana token.
    - If you land on a lion space, the lion moves one step closer to waking up.
4. **End Turn:** The turn passes to the next player in clockwise order.

Winning the Game:

The game ends when all bananas are collected or when the lion reaches the final space and wakes up. Players then count their collected banana tokens. The player with the most bananas wins. In case of a tie, the player who last collected a banana or has a specific tie-breaker condition (refer to original game rules if available) wins.
