- **Choking Hazard:** Keep small parts away from infants and young children.

- **Cleaning:** Use only a damp cloth for cleaning. Do not immerse electronic components (if any) in water.
- **Storage:** Store the playset in a clean, dry environment away from extreme temperatures.

## 3. SETUP AND ASSEMBLY

---

While the product is designed for ease of use, the PLAYMOBIL 4055 Farm Value Set consists of numerous components that require assembly to form the complete farm structure and accessories. Adult assistance is highly recommended for this process.

### 3.1 Unpacking and Component Identification

1. Carefully remove all contents from the packaging.
2. Lay out all components and compare them against the parts list provided in the separate assembly guide (if included) to ensure all pieces are present.
3. Separate smaller pieces from larger structural components.

### 3.2 General Assembly Guidelines

- Follow the step-by-step diagrams provided in the dedicated assembly instructions that accompany the product.
- Connect pieces firmly until you hear a click or feel a secure connection.
- Start with the main farm building structure, then proceed to smaller accessories and figures.
- For components like the harvester, ensure all moving parts are correctly aligned for proper function. The harvester is designed to release bales when rolled, and its cutting mechanism rotates.
- Decorate trees and other elements with included accessories like flowers.

*Note: Assembly can be time-consuming due to the detailed nature and number of parts. Allow sufficient time for this process.*

## 4. OPERATING THE PLAY SET

---

The PLAYMOBIL 4055 Farm Value Set is designed for open-ended imaginative play. Once assembled, children can interact with the various elements to create their own farm stories.

- **Figures:** Position the farmer figures in various poses and locations around the farm.
- **Animals:** Arrange the farm animals in their respective enclosures or fields.
- **Harvester:** Roll the harvester across a flat surface to activate its bale-releasing and rotating functions.
- **Farm Equipment:** Utilize the included farm equipment with the figures to simulate daily farm tasks.
- **Buildings:** The farm building provides a central hub for play, allowing for interior and exterior scenes.

Encourage children to explore different scenarios and interactions between the figures, animals, and equipment.
