Polly Pocket P5050

Mattel Polly Pocket Animal Clinic Playset

MODEL: P5050

1. Important Safety Information

WARNING: Not suitable for children under 3 years old. This product contains small parts that may be swallowed, posing a choking hazard.

Recommended Age: This playset is recommended for children aged 4 years and up.

Always supervise young children during play to ensure safe use of all components.

2. Product Overview

The Mattel Polly Pocket Animal Clinic Playset (Model P5050) provides an engaging environment for imaginative pet care. This playset allows children to simulate veterinary visits, offering various areas for animal examination, grooming, and recovery. It encourages imaginative play, invention, and creativity.

3. Setup Instructions

The Polly Pocket Animal Clinic Playset is designed for minimal assembly. Follow these steps to prepare the playset for use:

- 1. Unpack Components:** Carefully remove all parts from the packaging. Ensure all figures, accessories, and playset sections are accounted for.
- 2. Connect Main Sections:** The playset typically consists of pre-assembled sections. Gently connect any detachable parts as indicated by the molded guides or slots.
- 3. Place Accessories:** Position the small accessories, such as examination tools, furniture, and animal figures, within their designated areas in the clinic.
- 4. Verify Stability:** Ensure the playset is stable on a flat surface before play begins.

4. Operating the Playset

The Animal Clinic Playset offers various interactive features for imaginative play:

- Examination Room:** Use the examination table and medical accessories to check on the animal patients.
- X-Ray Feature:** The playset includes an interactive X-ray screen. Place an animal figure in front of the screen and slide the panel to reveal an X-ray image.

Figure 4.1: Demonstrating the interactive X-ray screen feature, where a hand slides a panel to reveal an X-ray image of a cat.

- **Grooming Station:** Utilize the grooming area for washing and styling the animal figures.
- **Recovery Area:** After treatment, place the animal figures in the recovery beds for rest.
- **Movable Elements:** Some parts, like curtains or doors, may be movable to enhance play scenarios.

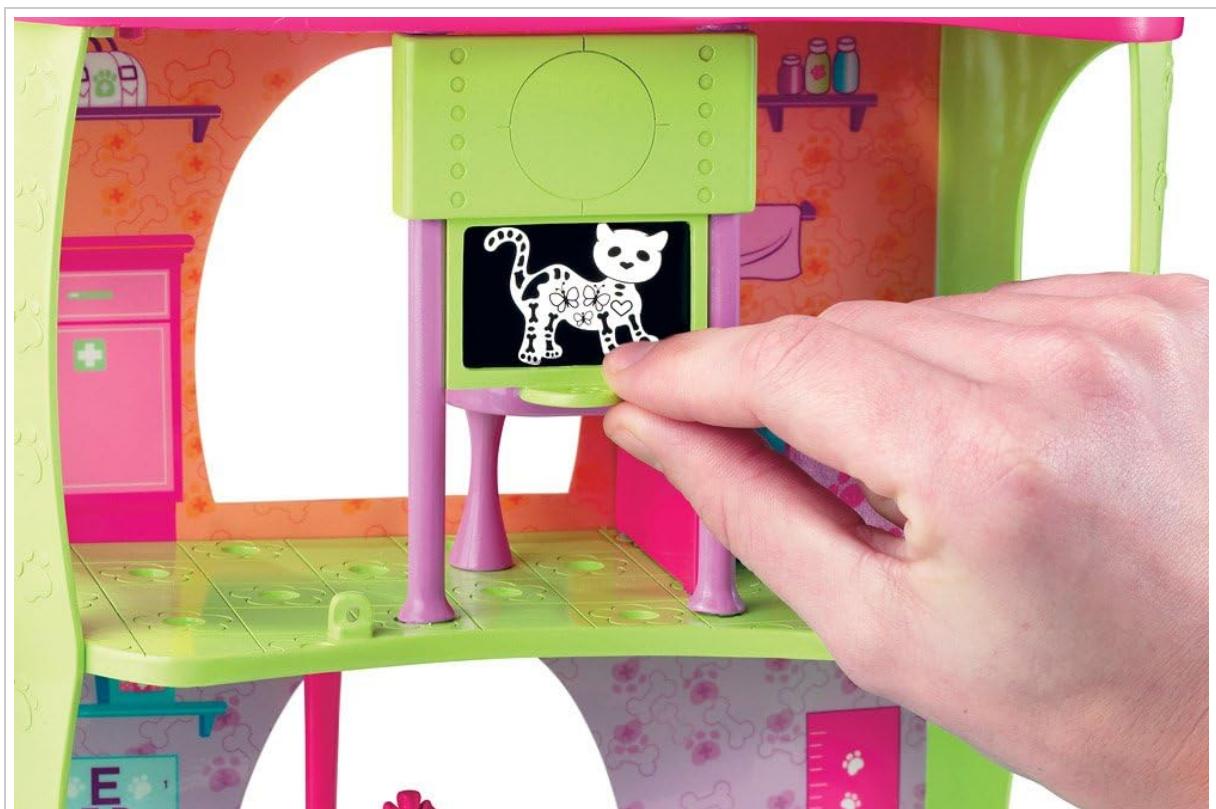

Figure 4.2: A hand interacting with a movable curtain, revealing a dog figure in an examination area, illustrating an interactive play feature.

5. Maintenance

To ensure the longevity and cleanliness of your playset:

- **Cleaning:** Wipe the playset and accessories with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic.
- **Storage:** Store the playset in a clean, dry place away from direct sunlight and extreme temperatures to prevent material degradation.
- **Small Parts:** Keep all small accessories together in a designated container to prevent loss.

6. Troubleshooting

Most issues with the playset can be resolved with simple checks:

- **Missing Parts:** If any small parts are missing, check the packaging thoroughly. For replacement parts, contact Mattel customer service (contact information not provided in product data).
- **Assembly Issues:** If parts do not fit together correctly, ensure they are aligned properly and not forced. Refer to the setup instructions.
- **Stuck Movable Parts:** If a movable part (e.g., door, curtain, X-ray slide) becomes stiff, gently clean around the mechanism to remove any dust or debris. Do not apply excessive force.
