## Braun ST750

# Braun Satin Hair 7 ST750 Hair Straightener User Manual

Model: ST750

## 1. Introduction

The Braun Satin Hair 7 ST750 Hair Straightener is engineered to provide efficient hair straightening while prioritizing hair health and color protection. This advanced styling tool incorporates IONTEC technology to combat frizz and static, along with a precise temperature control system for optimal results across various hair types.

## 2. Safety Information

Please read all safety instructions carefully before using this appliance. Failure to follow these instructions may result in electric shock, fire, or injury.

- Do not use this appliance near water, such as in bathtubs, showers, basins, or other vessels containing water.
- Always unplug the appliance immediately after use.
- Do not place or store the appliance where it can fall or be pulled into a tub or sink.
- Do not reach for an appliance that has fallen into water. Unplug it immediately.
- Keep the cord away from heated surfaces.
- Never use the appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- For specific safety warnings and detailed instructions, please refer to the original product manual provided with your device, as some warnings may be presented in other languages.

## 3. Setup

Before first use, ensure the appliance is clean and free from any packaging materials.

1. Unpack the Braun Satin Hair 7 ST750 Hair Straightener and remove all protective coverings.
2. Inspect the appliance for any visible damage. Do not use if damaged.
3. Ensure your hands are dry before plugging the straightener into a suitable power outlet.
4. Place the straightener on a heat-resistant surface, away from flammable materials.

## 4. Operating Instructions

The Braun Satin Hair 7 ST750 is designed for precise styling and hair protection.

### 4.1 Power On and Temperature Selection

1. Plug the appliance into an electrical outlet.

2. Press the power button to turn on the straightener. The display will illuminate.
3. Use the '+' and '-' buttons to select your desired temperature. The ST750 offers 15 precise temperature settings, ranging from 130°C to 200°C, in 5°C increments.
4. Allow the straightener to heat up. The display will indicate when the selected temperature is reached, typically within 30 seconds.

### 4.2 Hair Straightening

- Ensure your hair is clean, dry, and detangled before styling.
- Divide your hair into small, manageable sections.
- Take one section of hair and place it between the ceramic plates, close to the roots.
- Gently close the plates and glide the straightener slowly and evenly down the hair section, from root to tip. Avoid holding the straightener in one place for too long.
- Repeat this process for all sections of hair until desired results are achieved.
- The IONTEC technology releases millions of active ions to reduce frizz and static, promoting smoother, shinier hair.
- The Color Saver feature helps protect colored hair from fading by adjusting heat distribution.

### 4.3 Auto Shut-off

For safety and energy saving, the straightener is equipped with an automatic shut-off function. If left unattended for a certain period, it will automatically turn off.

## 5. Maintenance

Proper maintenance ensures the longevity and optimal performance of your straightener.

### 5.1 Cleaning

1. Always unplug the appliance and allow it to cool completely before cleaning.
2. Wipe the exterior surfaces and ceramic plates with a soft, damp cloth.
3. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the appliance.
4. Ensure no water enters the appliance.

### 5.2 Storage

- Store the cooled straightener in a dry place, away from moisture.
- Do not wrap the power cord around the appliance, as this can cause damage to the cord.
- Keep out of reach of children.

## 6. Troubleshooting

If you encounter issues with your Braun Satin Hair 7 ST750, refer to the following common troubleshooting steps:

- **Appliance does not turn on:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the outlet itself is functioning by plugging in another device.
- **Appliance is not heating up:** Verify that the straightener is turned on and the desired temperature is selected. Allow sufficient time for the plates to reach the set temperature.
- **Hair is not straightening effectively:** Ensure hair is completely dry and detangled. Use smaller sections of hair. Adjust the temperature setting to a higher level if your hair type requires more heat, always prioritizing hair health.
- **Frizz or static persists:** Ensure the IONTEC feature is active (if indicated by a light). Clean the plates to remove any product residue that might interfere with ion distribution.

If the problem persists after following these steps, please contact Braun customer service or an authorized service center.

## 7. Specifications

| | |
|---|---|
| **Brand** | Braun |
| **Model Number** | ST750 |
| **Power Source** | Corded Electric |
| **Max Temperature Setting** | 230 Degrees Celsius |

| | |
|---|---|
| **Product Dimensions** | 35.3 x 5.2 x 11 cm |
