## Grohe 28627000

# Grohe 28627000 Wall Union Instruction Manual

Model: 28627000 | Brand: Grohe

## INTRODUCTION

---

This instruction manual provides essential information for the proper installation, operation, and maintenance of your Grohe 28627000 Wall Union. Please read this manual thoroughly before beginning installation and retain it for future reference.

## PRODUCT OVERVIEW

---

The Grohe 28627000 Wall Union is a high-quality plumbing component designed to provide a secure and aesthetically pleasing connection for your shower or bath system. It features a durable construction and a refined finish, typical of Grohe's commitment to quality and design.

- **Connection Type:** 1/2 inch NPT female threads for standard plumbing connections.
- **Finish:** Grohe StarLight Chrome, offering a durable and lustrous surface.
- **Collection:** Part of the Movario Collection, ensuring compatibility and cohesive design with other Movario products.
- **Material:** Constructed from metal for long-lasting performance and reliability.

## SETUP AND INSTALLATION

---

Proper installation is crucial for the functionality and longevity of your wall union. If you are unsure about any steps, it is recommended to consult a qualified plumber.

1. **Turn Off Water Supply:** Locate the main water shut-off valve for your home or the specific area where you are working and turn it off. Open nearby faucets to relieve pressure in the lines.
2. **Prepare Wall Connection:** Ensure the wall opening and existing plumbing are clean and free of debris. The 1/2 inch NPT female threads should be accessible and in good condition.
3. **Apply Thread Sealant:** Apply plumber's tape (PTFE tape) or pipe thread sealant to the male threads of the pipe extending from the wall. Wrap the tape clockwise around the threads 3-4 times.
4. **Thread the Wall Union:** Carefully thread the Grohe 28627000 Wall Union onto the prepared pipe threads. Hand-tighten first to ensure proper alignment and avoid cross-threading.
5. **Tighten Securely:** Use an appropriate wrench to tighten the wall union. Do not overtighten, as this can damage the threads.

or the union itself. Tighten until snug and the union is oriented correctly.

6. **Restore Water Supply:** Slowly turn the main water supply back on. Check for any leaks around the newly installed wall union. If leaks occur, turn off the water, re-tighten the connection, or reapply thread sealant.

## OPERATING INSTRUCTIONS

The Grohe 28627000 Wall Union functions as a fixed connection point for a hand shower hose or similar plumbing fixture. Once correctly installed, it requires no active operation. Water flow is controlled by the connected shower valve or faucet.

## MAINTENANCE

To maintain the pristine appearance and functionality of your Grohe Wall Union, follow these simple maintenance guidelines:

- **Cleaning:** Clean the surface regularly with a soft cloth and a mild soap solution. Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the StarLight Chrome finish.
- **Drying:** After cleaning, always rinse thoroughly with clean water and dry the surface with a soft cloth to prevent water spots and maintain shine.
- **Inspection:** Periodically check the connection for any signs of leaks or corrosion. Address any issues promptly to prevent further damage.

## TROUBLESHOOTING

If you encounter any issues with your Grohe Wall Union, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Water Leak at Connection	Loose connection, insufficient thread sealant, damaged threads.	Turn off water supply. Carefully tighten the wall union. If the leak persists, remove the union, reapply thread sealant (PTFE tape), and re-install. Inspect threads for damage.
Reduced Water Flow	Blockage in the connected hose or shower head, or issues with the main water supply.	This issue is unlikely to be caused by the wall union itself. Check the connected shower hose and shower head for blockages or mineral buildup. Ensure main water supply is fully open.

If troubleshooting steps do not resolve the issue, contact Grohe customer support or a professional plumber.

## SPECIFICATIONS

Feature	Detail
Part Number	28627000
Item Weight	5.4 ounces
Product Dimensions	3.07 x 2.95 x 2.84 inches
Color	Chrome
Finish	Starlight Chrome
Material	Metal
Installation Method	Wall-Mounted
Mounting Type	Wall Mount
Item Package Quantity	1
Number Of Pieces	1

## WARRANTY INFORMATION

---

The Grohe 28627000 Wall Union comes with a **LIMITED** warranty. For specific details regarding warranty coverage, terms, and conditions, please refer to the official Grohe warranty documentation included with your purchase or visit the official Grohe website.

## SUPPORT

---

For technical assistance, replacement parts, or further inquiries, please contact Grohe customer support through their official website or the contact information provided in your product packaging. When contacting support, please have your product model number (28627000) and purchase date available.
