

Litex CC42WW4L

Litex Celeste Collection 42-Inch Ceiling Fan

Model: CC42WW4L

INTRODUCTION

This manual provides detailed instructions for the safe installation, operation, and maintenance of your Litex Celeste Collection 42-Inch Ceiling Fan. Please read all instructions carefully before beginning installation to ensure proper function and safety. This ceiling fan is designed for small indoor rooms and features a flush mount installation.

SAFETY INFORMATION

Always disconnect power at the main circuit breaker before installing, cleaning, or servicing the fan. Failure to do so can result in electrical shock or serious injury.

- Ensure all electrical connections comply with local codes and ordinances, as well as the National Electrical Code (NEC).
- The fan must be mounted to a structurally sound ceiling outlet box marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less."
- Maintain a minimum clearance of 7 feet from the floor to the fan blades.
- Do not insert objects into the path of the fan blades.
- Use only the specified light bulb type and wattage (1 x 6.5 watt LED bulb, 60 watt equivalent, E26 Medium base).
- This fan is designed for indoor, dry locations only.

SETUP AND INSTALLATION

The Litex Celeste ceiling fan is designed for flush mount installation only. Assembly is required.

Unpacking and Inspection

Carefully remove all components from the packaging. Verify that all parts listed in the included parts list are present and undamaged. If any parts are missing or damaged, do not proceed with installation and contact customer service.

Mounting the Fan

This fan is hardwired and requires direct connection to your home's electrical system. Ensure the power is OFF at the circuit breaker before beginning. Secure the mounting bracket to the ceiling outlet box. The fan's installed dimensions are approximately 6.5 inches from the ceiling to the blade and 12.5 inches from the ceiling to the bottom of the light kit glass.

Figure 1: Litex Celeste Ceiling Fan installed in a room, demonstrating its flush mount design and compact size.

Wiring Connections

Connect the fan's electrical wires to the corresponding household wires according to the wiring diagram provided in the separate wiring instructions. Ensure all connections are secure and properly insulated.

Attaching Blades and Light Kit

Attach the five reversible white/whitewash blades to the motor housing. Secure the single light kit with the white opal glass dome to the fan body. Install one E26 Medium base LED bulb (60 watt equivalent, not included) into the light kit.

Figure 2: Close-up view of the Litex Celeste Ceiling Fan, showing the white finish, reversible blades, and the white opal glass light kit.

OPERATING INSTRUCTIONS

Your Litex Celeste Ceiling Fan is controlled via a remote control. Ensure the remote has working batteries.

Fan Operation

- **Power On/Off:** Press the fan power button on the remote to turn the fan on or off.
- **Speed Control:** Use the speed control buttons on the remote to adjust the fan speed (typically low, medium, high).
- **Reversible Airflow:** This fan features reversible airflow. Locate the reverse switch on the fan motor housing (usually a small toggle switch). Flip the switch to change the direction of the blades. In warm weather, the fan should rotate counter-clockwise to create a cooling breeze. In cool weather, it should rotate clockwise at a low speed to circulate warm air from the ceiling.

Light Operation

- **Light On/Off:** Press the light button on the remote to turn the light on or off.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the finish or electrical components.
- **Blade Care:** Periodically check the blade screws for tightness. Loose blades can cause wobbling and noise.
- **Light Bulb Replacement:** Ensure power is disconnected before replacing the light bulb. Allow the bulb to cool completely before touching. Replace with an E26 Medium base LED bulb (60 watt equivalent).
- **Motor Lubrication:** The fan's motor is permanently lubricated and does not require additional oiling.

TROUBLESHOOTING

If you experience issues with your ceiling fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Fan does not start	No power to fan; Loose wire connections; Remote control battery dead.	Check circuit breaker; Verify all wire connections are secure; Replace remote control battery.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Ensure blades are balanced (balancing kit may be needed); Secure mounting bracket.
Light does not work	Light bulb burned out; Loose wire connection in light kit.	Replace light bulb; Check light kit wiring connections.
Noisy operation	Loose screws; Motor hum; Blades hitting an obstruction.	Check and tighten all screws; Ensure fan is properly mounted; Verify no obstructions are in the blade path.

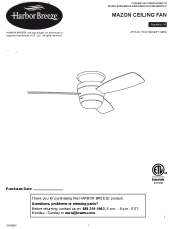

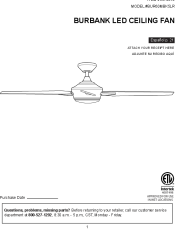

SPECIFICATIONS

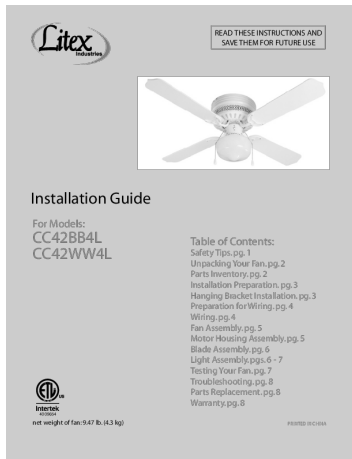

Feature	Specification
Brand	Litex
Model Number	CC42WW4L
Product Dimensions	42"L x 42"W x 12.5"H
Color	White
Material	Alloy Steel (Fan Body), Glass (Shade)
Installation Type	Flush Mount
Power Source	Hardwired
Control Method	Remote Control
Light Source Type	Incandescent (E26 Medium Base)
Voltage	120 Volts
Wattage (Light)	60 watts (equivalent)
Special Feature	Reversible Airflow
Item Weight	9.46 pounds

WARRANTY AND SUPPORT

The Litex Celeste Collection Ceiling Fan comes with a limited lifetime warranty. For warranty details, parts, or customer support, please contact Litex Industries directly.
