## Westinghouse 0363600

# Westinghouse 0363600 25 Watt G16.5 Incandescent Light Bulb User Manual

Model: 0363600

## INTRODUCTION

This manual provides essential information for the safe and effective use of your Westinghouse 0363600 Incandescent Light Bulb. Please read these instructions carefully before installation and retain them for future reference. This bulb is designed for general illumination purposes in indoor environments.

## SAFETY INFORMATION

Always follow basic safety precautions when installing or replacing light bulbs to reduce the risk of fire, electric shock, or personal injury.

- **Turn off power:** Always disconnect power to the fixture before installing, removing, or inspecting the bulb.
- **Handle with care:** Incandescent bulbs can become hot during operation. Allow the bulb to cool completely before handling.
- **Proper wattage:** Do not exceed the maximum wattage rating of your fixture. This bulb is 25 watts.
- **Dry location use:** This bulb is intended for indoor use in dry locations only. Do not use where directly exposed to water.
- **Dimmable:** This bulb is dimmable. Ensure your dimmer switch is compatible with incandescent bulbs.
- **Disposal:** Dispose of used bulbs according to local regulations.

## SETUP AND INSTALLATION

---

Follow these steps to properly install your new light bulb:

1. **Verify compatibility:** Ensure the fixture's socket type is E12 (Candelabra Screw Base) and the voltage matches the bulb's 130V rating.
2. **Turn off power:** Before installation, ensure the power supply to the light fixture is turned off at the circuit breaker or wall switch.
3. **Remove old bulb (if applicable):** If replacing an old bulb, allow it to cool completely before carefully unscrewing it counter-clockwise.
4. **Install new bulb:** Gently screw the Westinghouse 0363600 bulb clockwise into the E12 socket until it is snug. Do not overtighten.
5. **Restore power:** Turn the power back on at the circuit breaker or wall switch.

## OPERATING INSTRUCTIONS

---

Once installed, operating the bulb is straightforward:

- **Turning On/Off:** Use the wall switch connected to the fixture to turn the light on or off.
- **Dimming:** If connected to a compatible dimmer switch, adjust the dimmer control to achieve the desired brightness level.
- **Normal Operation:** The bulb will provide 155 lumens of warm white light (2700K color temperature) when fully powered.

## MAINTENANCE

---

This incandescent light bulb requires minimal maintenance.

- **Cleaning:** Ensure the power is off and the bulb is cool before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners.
- **Replacement:** The average life of this bulb is 2500 hours. Replace the bulb when it burns out by following the "Setup and Installation" steps in reverse for removal, then install a new bulb.

## TROUBLESHOOTING

---

If your light bulb is not functioning as expected, consider the following:

- **Bulb does not light:**
  - Check if the power switch is on.
  - Ensure the bulb is screwed in securely.
  - Verify the circuit breaker has not tripped.
  - Test the bulb in another working fixture to confirm if the bulb or fixture is faulty.
  - The bulb may have reached the end of its lifespan and needs replacement.
- **Bulb flickers or dims unexpectedly:**
  - Ensure the bulb is screwed in tightly.
  - If using a dimmer, ensure it is compatible with incandescent bulbs and functioning correctly.
  - Check for loose wiring in the fixture (consult a qualified electrician if unsure).

## SPECIFICATIONS

---

Feature	Specification
Model Number	0363600
Brand	Westinghouse
Light Type	Incandescent
Wattage	25 Watts
Voltage	130 Volts
Bulb Shape Size	G16.5 (Globe)
Bulb Base	E12 (Candelabra Screw)
Brightness	155 Lumens
Color Temperature	2700 Kelvin (Warm White)
Average Life	2500 Hours
Dimmable	Yes
Indoor/Outdoor Usage	Indoor
Material	Copper
Product Dimensions	1.97 x 1.97 x 2.36 inches
Item Weight	0.317 ounces
