## Logitech R800

# Logitech Wireless Presenter R800 Instruction Manual

Model: R800 (P/N: 910-001350)

## INTRODUCTION

---

The Logitech Wireless Presenter R800 is a professional presentation remote designed for seamless control of slideshows. It features a bright green laser pointer, intuitive controls, and a long wireless range, making it ideal for various presentation environments. This manual provides detailed instructions for setting up, operating, and maintaining your device.

Figure 1: Logitech Wireless Presenter R800

## SETUP

### 1. Battery Installation

The presenter requires two AAA batteries. Open the battery compartment located at the bottom of the device. Insert the batteries according to the polarity markings (+/-), then close the compartment securely.

Figure 2: Battery compartment with AAA batteries

## 2. USB Receiver Connection

The wireless USB receiver is conveniently stored within the presenter's base. Gently pull it out. Plug the receiver into an available USB port on your computer. The device is plug-and-play, requiring no additional software installation for basic functionality.

### 3. Compatibility

The Logitech Wireless Presenter R800 is compatible with Windows 10, 11, or later operating systems. A free USB port is required for the receiver.

### 4. Setup Video

Video 1: A detailed review of the Logitech R800, demonstrating its features including the USB receiver, battery compartment, and button functionalities for presentation control.

## OPERATING INSTRUCTIONS

### 1. Power On/Off

Locate the manual slide switch on the side of the presenter. Slide it to the 'ON' position to power on the device. Slide it to 'OFF' when not in use to conserve battery life.

### 2. Slideshow Control

The presenter features intuitive buttons for navigating your presentation:

- **Next Slide:** Press the right arrow button (>).
- **Previous Slide:** Press the left arrow button (<).
- **Start Presentation:** Press the button with the play icon.
- **Black Screen:** Press the button with the blank screen icon to temporarily black out the screen, redirecting audience attention to you. Press again to resume the presentation.

#### 4. Wireless Range

The Logitech R800 offers a wireless range of up to 100 feet (approximately 30 meters), providing ample freedom to move around the room and engage with your audience without being tethered to your computer.

#### 5. Operating Video

Video 2: A demonstration of the Logitech R800 Wireless Remote Presenter, highlighting its design and how to use its various controls for presentations.

### MAINTENANCE

#### 1. Battery Replacement

The LCD display on the presenter includes a battery indicator. When the indicator shows low power, replace the two AAA batteries to ensure uninterrupted performance during your presentations.

#### 2. Storage

To prevent loss and damage, always store the USB receiver in its dedicated docking bay within the presenter when the device is

not in use or during transport.

## TROUBLESHOOTING

- **No Response:** Ensure the presenter is powered on using the side switch and the USB receiver is securely plugged into an active USB port on your computer. Check the battery indicator on the LCD display and replace batteries if they are low.
- **Laser Not Working:** Verify the presenter is powered on and that you are pressing and holding the top laser button.
- **Limited Range or Intermittent Connection:** Ensure there are no significant physical obstructions between the presenter and the USB receiver. Avoid using the device near strong electromagnetic interference sources.

## SPECIFICATIONS

Feature	Detail
Brand	Logitech
Series	R800
Item Model Number	910-001350
Operating System	Windows 10, 11 or later
Item Weight	0.48 ounces
Product Dimensions	1.5 x 0.75 x 5.25 inches
