1. INTRODUCTION

The CROC Classic Nano-Titanium Flat Iron 1.5 inch is a salon quality tool designed to help you achieve professional styling results at home. This flat iron features advanced silver titanium plates for efficient and effective hair straightening.

Figure 1: CROC Classic Silver Titanium Flat Iron, 1.5 Inch. This image displays the overall design of the flat iron, highlighting its sleek black body and digital temperature display.

2. SETUP

1. **Unpack:** Carefully remove the flat iron from its packaging. Ensure all components are present and undamaged.
2. **Inspect:** Before first use, inspect the power cord and the flat iron for any signs of damage. Do not use if damaged.
3. **Plug In:** Plug the flat iron into a standard electrical outlet. Ensure your hands are dry before handling the plug.
4. **Power On:** Press and hold the power button located on the handle until the digital display illuminates.

3. OPERATING INSTRUCTIONS

3.1. Temperature Settings

The CROC Classic Flat Iron offers a wide range of digital temperature settings from 280°F to 450°F, allowing for precise heat

control tailored to your hair type.

- **Fine/Chemically Treated Hair:** 280-330 °F
- **Wavy/Medium Textured Hair:** 310-390 °F
- **Thick/Coarse Hair:** 390-450 °F

Use the '+' and '-' buttons on the handle to adjust the temperature. The digital display will show the current temperature as it heats up or cools down.

Figure 2: Digital Temperature Settings. This image highlights the digital display and control buttons for adjusting the heat from 280°F to 450°F.

3.2. Hair Straightening Process

1. **Prepare Hair:** Ensure hair is clean, dry, and free of tangles. For best results and heat protection, apply a heat protectant spray.
2. **Section Hair:** Divide your hair into small, manageable sections (approximately 1-2 inches wide).
3. **Straighten:** Take one section of hair and place it between the heating plates, close to the roots. Gently close the plates and glide the flat iron slowly and steadily down the hair section, from root to tip. Avoid holding the iron in one place for too long to prevent heat damage.

4. **Repeat:** Repeat the process for all sections of your hair until desired straightness is achieved.

1.5 INCH SILVER TITANIUM PLATE

**Lock in moisture and
reduce static**

Figure 3: Hair Straightening in Progress. This image shows a user holding the 1.5-inch silver titanium plate flat iron to straighten a section of hair, demonstrating the plate size and how it locks in moisture.

The silver titanium plates help to lock in moisture and reduce static, contributing to a shiny, smooth finish. The ergonomic design ensures comfortable handling during use.

ERGONOMIC DESIGN

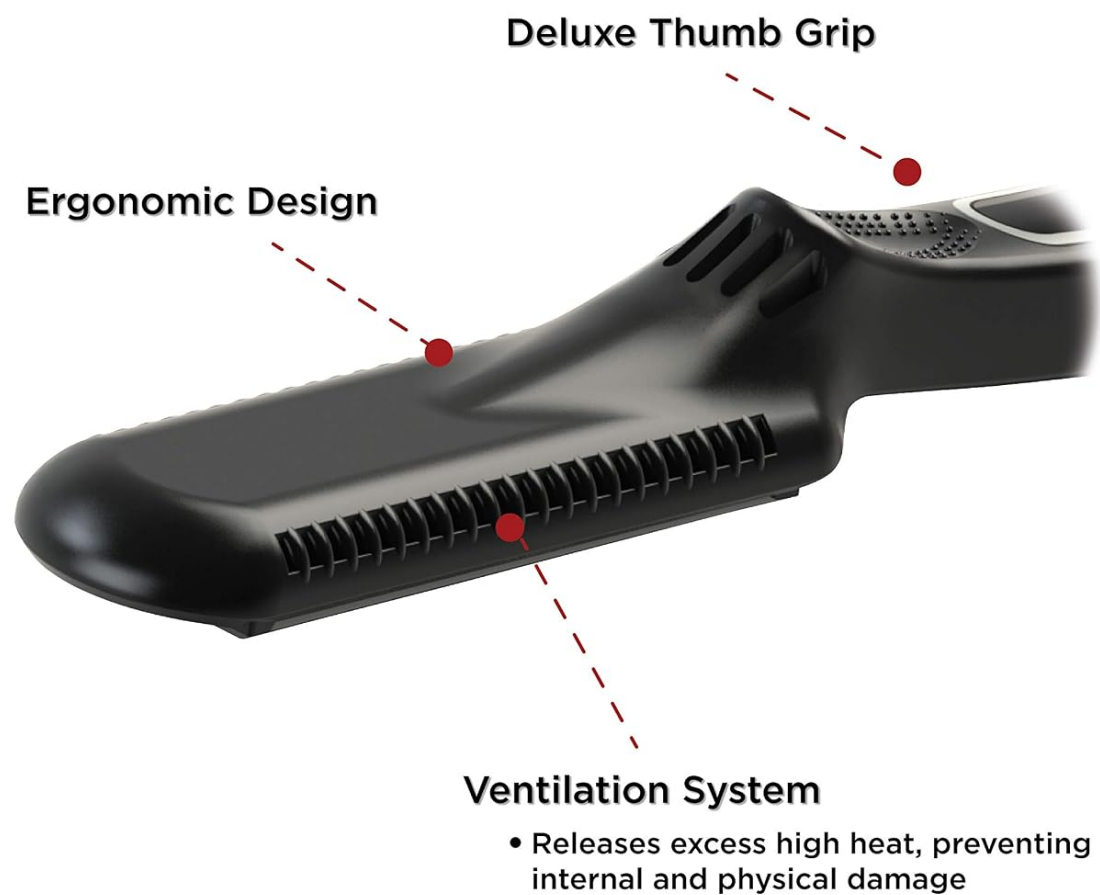

Figure 4: Ergonomic Design. This image illustrates the ergonomic design of the flat iron, including the deluxe thumb grip and ventilation system for comfortable and safe use.

4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your CROC Classic Flat Iron.

- **Cleaning:** Ensure the flat iron is unplugged and completely cool before cleaning. Wipe the titanium plates and the exterior with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Storage:** Store the flat iron in a cool, dry place. Avoid wrapping the cord tightly around the iron, as this can damage the cord.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Flat iron does not heat up.	Not plugged in correctly, power outlet issue, or internal fault.	Ensure the iron is securely plugged into a working outlet. Check the power button is pressed. If the issue persists, contact customer support.
Temperature display is not working.	Electrical malfunction.	Unplug the iron, wait a few minutes, and plug it back in. If the display remains off, discontinue use and contact customer support.
Hair is not straightening effectively.	Incorrect temperature setting, large hair sections, or hair not fully dry.	Adjust temperature according to hair type (refer to Section 3.1). Ensure hair is completely dry. Work with smaller sections of hair.
Smoke or unusual odor during use.	Product residue on plates, or hair product burning.	Ensure plates are clean before use. Use heat protectant sparingly. If excessive smoke or a burning smell persists, immediately unplug and discontinue use.

The flat iron features an automatic shut-off safety feature after 30 minutes of non-use. This helps prevent overheating and conserves energy.

AUTO SHUT-OFF

- Built-in, automatic shut-off, safety feature after 30 minutes of non-use

- Built-in ceramic heaters enable instant heat recovery, providing consistent heat during use

Figure 5: Auto Shut-Off Feature. This image highlights the automatic shut-off feature after 30 minutes of non-use and the built-in ceramic heaters for instant heat recovery.

6. SPECIFICATIONS
