SETUP AND ASSEMBLY

Assembly is required for this unit. All necessary hardware is included. A Phillips head screwdriver and a small hammer are recommended tools for assembly.

1. **Prepare the Area:** Choose a clean, flat, and soft surface for assembly to prevent damage to the unit's finish.
2. **Assemble the Frame:** Follow the diagrams provided in the included instruction sheet to connect the top, bottom, and side panels using the designated screws. Ensure all connections are snug.
3. **Install Dividers:** Insert the internal divider panels into the pre-drilled slots to create the 15 individual cubes.
4. **Attach Backing Board:** Carefully align the backing board to the rear of the assembled frame. Secure it using the small nails provided. Ensure the board is as flat as possible.
5. **Stacking Multiple Units (Optional):** If stacking multiple ClosetMaid stackable organizers, use the provided L-bracket and wall screw to secure each unit individually to a wall stud. This is crucial for stability and safety. Do not stack more than three units high (maximum overall height 72 inches).

OPERATING AND USAGE

The ClosetMaid 15-Cube Organizer is designed for versatile storage. Each cube measures approximately 5.75 inches H x 4.5 inches W x 11 inches D.

- **Shoe Storage:** Each cube can typically accommodate one adult dress shoe or sneaker. For smaller shoes like flip-flops or sandals, two pairs may fit per cube. For larger men's shoes or high heels, one shoe per cube or removing a divider may be necessary.
- **Accessory Storage:** Ideal for small bags, scarves, hats, and other accessories.
- **Craft and Hobby Supplies:** Organize craft materials, yarn, tools, or small hobby items.
- **Office Supplies:** Store stationery, documents, or small office equipment.
- **Display:** Use cubes to display figurines, small art pieces, or decorative items.

MAINTENANCE

To maintain the appearance and longevity of your ClosetMaid organizer:

- **Cleaning:** Wipe the surfaces with a dry cloth. Avoid abrasive cleaners or harsh chemicals, which can damage the laminated finish.
- **Inspection:** Periodically check all hardware connections to ensure they remain tight. Re-tighten if necessary.
- **Placement:** Avoid placing the unit in direct sunlight or in areas with extreme temperature fluctuations or high humidity, as this can affect the wood material.

TROUBLESHOOTING

- **Unit is Wobbly:**

Ensure all screws are fully tightened. If stacking, verify that the unit is securely anchored to a wall stud using the provided hardware.

- **Shoes Do Not Fit:**

The internal dimensions of each cube are 5.75" H x 4.5" W x 11" D. For larger shoes (e.g., men's trainers, high heels), consider storing one shoe per cube or removing a divider if the design allows and stability is not compromised. Flat shoes like flip-flops can often be stacked two pairs per cube.

- **Backing Board Not Flat:**

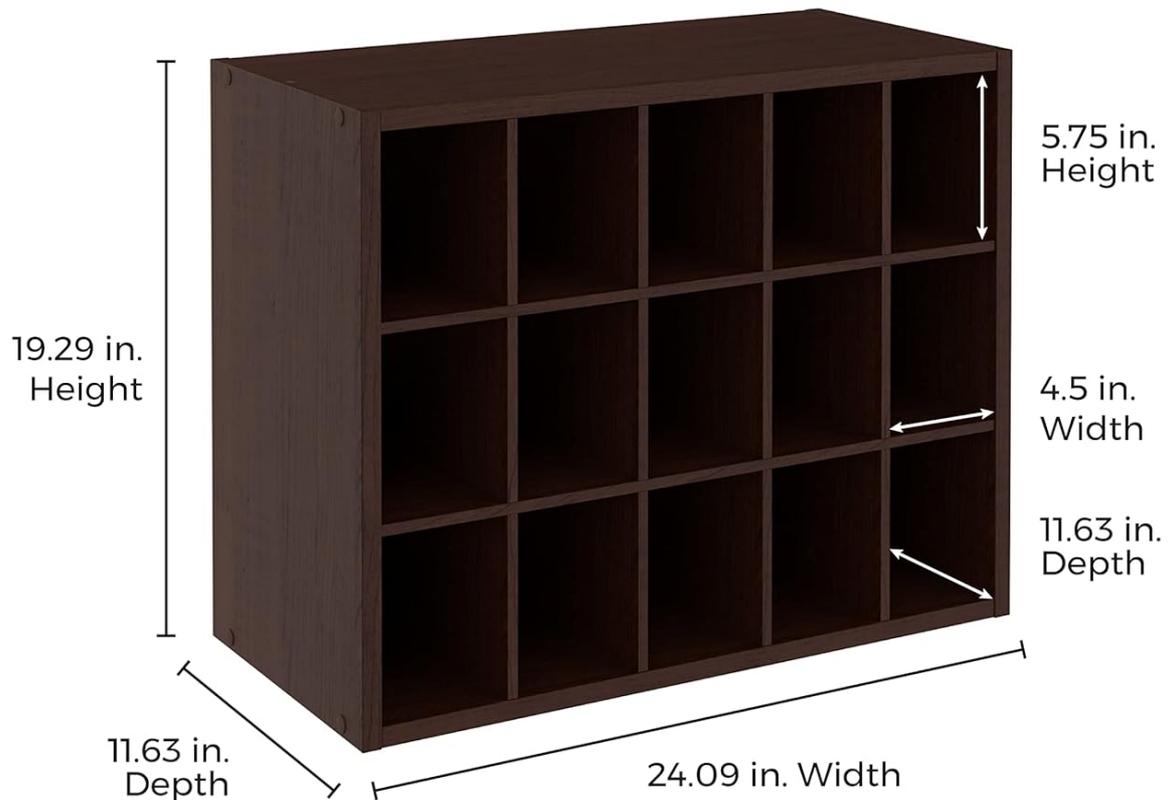

During assembly, ensure the backing board is properly aligned before nailing. If it's slightly uneven, it typically does not affect the structural integrity or visibility once items are placed in the cubes.
