Product Overview

This product combines a flexible ring structure with a vibrating stimulator. Key features include:

- **Dual Support:** Designed to provide support for the wearer.
- **Flickering Tongue:** A soft, flexible extension designed for external stimulation.
- **Removable Stimulator:** A powerful, compact vibrator that can be inserted into the device or used separately.
- **Material:** Constructed from Thermoplastic Rubber (TPR) for the ring and ABS with silver plating for the stimulator.
- **Stretchable Design:** Ensures a comfortable and adaptable fit.
- **Splashproof:** Rated IPX5 for water resistance.

Setup

1. **Initial Cleaning:** Before first use, wash the product thoroughly with warm water and a mild soap. Rinse completely and allow to air dry.
2. **Battery Installation:** The stimulator requires 1 AAA battery (included). To install, twist the cap of the stimulator to open the battery compartment. Insert the AAA battery according to the polarity markings (+/-). Securely twist the cap back on.
3. **Lubrication:** For maximum comfort and pleasure, always use a water-based lubricant with this product.

Operation

1. **Placement:** Position the flexible ring around the base as desired. The smaller inner ring is designed for the shaft, and the larger ring for the scrotum, providing dual support. Ensure the flickering tongue is oriented to provide stimulation to the desired area.
2. **Activating the Stimulator:** Press and hold the push-button control on the stimulator for approximately 3 seconds to

turn it on or off. Short presses may cycle through different vibration functions.

3. **Adjusting Vibration:** The stimulator offers multiple powerful functions. Press the button briefly to cycle through the available vibration patterns and intensities.
4. **Enjoyment:** The device is designed to provide vibrations and flickering sensations for both partners during intimate activity.

Maintenance

- **Cleaning:** Wash the product thoroughly with warm water and a mild soap before and after each use. Rinse completely to remove all soap residue. The product is splashproof, allowing for easy cleaning under running water.
- **Drying:** Pat dry with a lint-free cloth or allow to air dry completely before storage.
- **Storage:** Store the product in a clean, dry place away from direct sunlight and extreme temperatures. Remove the battery from the stimulator when not in use for extended periods to prevent corrosion.
- **Compatibility:** Avoid using silicone-based lubricants with this product as they may degrade the TPR material. Always use water-based lubricants.

Troubleshooting

- **Device does not turn on:** Ensure the AAA battery is correctly installed with the proper polarity and is not depleted. Replace the battery if necessary.
- **Weak or inconsistent vibration:** This often indicates a low battery. Replace the AAA battery with a fresh one.
- **Discomfort during use:** Ensure adequate water-based lubricant is applied. If discomfort persists, discontinue use and consult the safety guidelines.
