Percent Ashitaba Powder Instruction Manual

Model: 2328541

INTRODUCTION

This manual provides essential information for the safe and effective use of Percent Ashitaba Powder. Please read these instructions carefully before use and retain for future reference.

PRODUCT OVERVIEW

Percent Ashitaba Powder is derived from genuine Ashitaba sprouts, cultivated on Hachi Jo Island, Japan. The growth of Ashitaba is naturally supported by the island's rich volcanic soil and warm tropical currents. Known as "the leaf of tomorrow" due to its rapid regeneration, Ashitaba contains a unique flavonoid compound called Chalcone. Historically, residents of Hachi Jo Island have consumed Ashitaba as part of their diet.

This product, first launched in 1989, utilizes Ashitaba sprouts sourced from "Ashitaba Manufacture Factory, Co. Ltd." in Japan. It is packaged under certified "CGMP" authority in the USA. Advanced processing methods are employed to preserve the original nutrients and fresh flavor of the Ashitaba.

USAGE INSTRUCTIONS

Preparation

No special preparation is required for the Ashitaba powder itself. Ensure you have a clean spoon and a suitable liquid for mixing.

Recommended Use (Operating)

To use Percent Ashitaba Powder as a dietary supplement:

1. Measure **1 teaspoon** of Ashitaba powder.
2. Mix the measured powder with water or tea.
3. Consume the mixture as desired.

This product is intended for daily consumption.

SAFETY INFORMATION

- This product is not intended to diagnose, treat, cure, or prevent any disease.
- Statements regarding dietary supplements have not been evaluated by the Food and Drug Administration (FDA).
- Consult with a healthcare professional before starting any new dietary supplement, especially if you are pregnant, nursing, have a medical condition, or are taking any medications.
- Keep out of reach of children.

STORAGE AND CARE (MAINTENANCE)

To maintain the quality and freshness of your Percent Ashitaba Powder:

- Store in a cool, dry place.
- Keep the container tightly sealed after each use to prevent moisture absorption.
- Avoid direct sunlight and excessive heat.
