# Schonbek Signature 1560-76A Petit Crystal 4-Light Flush Mount Instruction Manual

Model: 1560-76A | Brand: Schonbek

## INTRODUCTION

This instruction manual provides detailed guidance for the safe installation, operation, and maintenance of your Schonbek Signature 1560-76A Petit Crystal 4-Light Flush Mount fixture. Please read all instructions carefully before beginning installation and retain this manual for future reference. Proper installation and care will ensure the longevity and optimal performance of your lighting fixture.

finish and clear Swarovski Spectra crystals.

## IMPORTANT SAFETY INFORMATION

---

To reduce the risk of fire, electric shock, or personal injury, always follow these safety precautions:

- **WARNING:** Disconnect power at the circuit breaker or fuse box before installation or servicing.
- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Consult a qualified electrician if you are unfamiliar with electrical wiring.
- This fixture is designed for indoor use only. Do not expose to water or moisture.
- Handle crystal components with care to prevent breakage or injury.
- Ensure the mounting surface can support the weight of the fixture.
- Use only the specified bulb type and wattage to avoid overheating.

## PACKAGE CONTENTS

---

Verify that all components are present and undamaged before proceeding with installation. If any parts are missing or damaged, contact customer support.

- Lighting Fixture (1)
- Swarovski Spectra Crystals (Quantity as required for assembly)
- Mounting Hardware (1 set)
- Instruction Sheets (1)
- Certificate of Authenticity (1)
- Manufacturer Warranty Certificate (1)

## INSTALLATION INSTRUCTIONS

---

### 1. Before You Begin

- Turn off power at the main circuit breaker or fuse box.
- Ensure you have the necessary tools: screwdriver, wire strippers, electrical tape, safety glasses, and a ladder.
- Unpack the fixture carefully and lay out all components on a clean, soft surface to prevent scratches.

### 2. Mounting the Fixture

1. Attach the mounting bracket to the electrical junction box using the provided screws. Ensure the bracket is securely fastened.
2. Connect the fixture's electrical wires to the house wiring:
  - Connect the black wire (hot) from the fixture to the black wire from the junction box.
  - Connect the white wire (neutral) from the fixture to the white wire from the junction box.
  - Connect the green or bare copper wire (ground) from the fixture to the ground wire from the junction box.Secure all connections with wire nuts and wrap with electrical tape.
3. Carefully tuck the wires into the junction box.

4. Align the fixture base with the mounting bracket and secure it with the decorative nuts or screws provided.

**Figure 2:** The flush mount fixture installed on a ceiling, demonstrating its compact profile.

### 3. Crystal Assembly

The crystals for your Schonbek fixture require individual pinning and attachment. Refer to the detailed crystal diagram included in your package for specific placement. Handle crystals by their edges to avoid fingerprints.

- Carefully remove crystals from their packaging.
- Attach each crystal strand or individual crystal to the designated hooks or holes on the fixture frame as per the provided diagram.
- Ensure all crystals are securely fastened.

**Figure 3:** A detailed view of the fixture's crystal arrangement, illustrating the intricate design.

#### 4. Bulb Installation

- This fixture requires **4 x E12 base, G16.5 shape 120V light bulbs** (40W max incandescent or LED equivalent). Bulbs are sold separately.
- Carefully screw the bulbs into the sockets. Do not overtighten.
- Ensure bulbs are fully seated in the sockets.

#### OPERATING INSTRUCTIONS

---

Once installation is complete and all crystals and bulbs are securely in place, restore power at the circuit breaker. The fixture is designed for standard wall switch operation. For dimming functionality, ensure you are using dimmable bulbs and a compatible dimmer switch (sold separately).

- **Power On/Off:** Use your wall switch to turn the light fixture on or off.
- **Dimming:** If a compatible dimmer switch is installed, adjust the dimmer to control the light intensity.

#### MAINTENANCE AND CARE

---

Regular cleaning will maintain the beauty and brilliance of your Schonbek fixture.

- **Cleaning the Fixture Frame:** Dust the metal frame with a soft, dry cloth. For more thorough cleaning, use a slightly damp cloth with mild soap and water, then dry immediately. Avoid abrasive cleaners or solvents.
- **Cleaning the Crystals:** The Swarovski Spectra crystals can be cleaned with a soft, lint-free cloth. For deeper cleaning, use a specialized crystal cleaner or a solution of mild soap and distilled water. Spray the solution onto the cloth, not directly onto the crystals or fixture. Gently wipe and then buff dry with a clean, dry cloth.

- **Bulb Replacement:** Always turn off power at the circuit breaker before replacing bulbs. Allow bulbs to cool completely before touching.

## TROUBLESHOOTING GUIDE

---

Before attempting any repairs, ensure power is disconnected at the circuit breaker.

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture. Loose wire connections. Faulty bulb. Faulty wall switch.	Check circuit breaker/fuse. Verify all wire connections are secure. Replace bulb with a known good one. Test or replace wall switch.
Light flickers or dims improperly.	Loose bulb. Incompatible dimmer switch or bulbs. Loose wire connections.	Tighten bulbs. Ensure dimmable bulbs and compatible dimmer are used. Check wire connections.
Crystals appear dull.	Dust or residue on crystals.	Clean crystals as per maintenance instructions.
