## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Lasko Tower Fan. Always unplug the fan before cleaning.

- Cleaning:** Use a soft cloth to gently wipe the exterior surfaces of the fan. Do not use water, wax, polish, or any chemical solutions. The front grill can be removed with a simple twist for easier cleaning of internal components.
- Storage:** When storing the fan, cover it with a plastic bag to protect it from dust. Store it in a cool, dry place.
- Motor:** The motor is permanently lubricated and requires no oiling.

## TROUBLESHOOTING

If your fan fails to operate, please check the following:

- Ensure the power cord is securely plugged into a working electrical outlet.

- Check if the circuit breaker has tripped or if a fuse has blown.
- Verify that the fan is turned ON using the power button on the control panel or remote.
- If the fan does not oscillate, ensure the oscillation function is activated.
- For any other issues, please refer to the support section or contact customer service.
