# Zenna Home Over-the-Toilet Bathroom Spacesaver Instruction Manual

Model: 2623NN

## 1. INTRODUCTION

Thank you for choosing the Zenna Home Over-the-Toilet Bathroom Spacesaver. This manual provides essential information for the proper assembly, installation, use, and maintenance of your new spacesaver. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This spacesaver is designed to maximize storage in your bathroom by utilizing the often-unused space above your toilet. It features a durable metal construction with a satin nickel finish, offering both functionality and an attractive appearance.

## 2. PRODUCT OVERVIEW

The Zenna Home Over-the-Toilet Bathroom Spacesaver is a freestanding storage unit featuring three shelves. It is designed to fit over most standard toilets, providing convenient storage for bath essentials, linens, toiletries, or decorative items.

### Key Features:

- **Space Maximization:** Utilizes the space above your toilet for efficient storage.
- **Three Shelves:** Provides ample space for organizing various bathroom items.
- **Durable Construction:** Made from metal with a rust-resistant satin nickel finish.
- **Easy Assembly:** Designed for straightforward setup with included hardware.
- **Toilet Clearance:** Bottom shelf is positioned 34.25 inches from the ground to accommodate most toilets.

## 4. ASSEMBLY AND SETUP

Assembly of the Zenna Home Spacesaver is designed to be straightforward. All necessary hardware is included. Please follow the instructions provided in the packaging for detailed step-by-step assembly. It is recommended to assemble the unit in the room where it will be used, or in a space large enough to maneuver the assembled unit.

### Important Considerations:

- **Space Requirements:** Ensure you have adequate space around your toilet for installation. The unit requires a minimum width of 23.25 inches.
- **Toilet Clearance:** The bottom shelf is 34.25 inches from the ground. Verify your toilet's height to ensure proper fit and accessibility of flush mechanisms.
- **Stability:** While the unit is designed to be sturdy, it is recommended to use the included wall anchors to secure the spacesaver to the wall for enhanced stability, especially if the unit feels wobbly or if you have a tight space.
- **Back Support Bar:** The back support bar is typically installed after the unit is placed behind the toilet. If space is extremely limited, you may need to adjust the installation sequence or consider alternative methods for stability.

## 5. OPERATING AND USAGE

Once assembled and securely placed, your Zenna Home Spacesaver is ready for use. The three shelves provide versatile storage options:

- **Top Shelf:** Ideal for decorative items, small plants, or infrequently used toiletries.
- **Middle Shelf:** Suitable for towels, extra toilet paper rolls, or larger bath accessories.
- **Bottom Shelf:** Convenient for items you access frequently, such as hand towels, soaps, or small storage baskets.

Ensure items are distributed evenly on the shelves to maintain balance and stability. Avoid overloading the shelves beyond their capacity.

Figure 5.1: A close-up of the shelves, demonstrating how various items can be organized and displayed.

## 6. MAINTENANCE

To keep your Zenna Home Spacesaver in optimal condition, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the unit with a dry cloth regularly to remove dust and dirt. Avoid abrasive cleaners or harsh chemicals, as they may damage the satin nickel finish.
- **Rust Resistance:** The satin nickel finish is designed to be rust-resistant, making it suitable for bathroom environments. However, prolonged exposure to excessive moisture should be avoided.
- **Check Connections:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.

## 7. TROUBLESHOOTING

If you encounter any issues with your Zenna Home Spacesaver, please refer to the following common troubleshooting tips:

- **Unit is Wobbly:**
  - Ensure all assembly screws are tightened securely.

- Verify that the unit is placed on a level surface. Use the adjustable feet at the bottom of the legs to level the unit if your floor is uneven.
- Utilize the included wall anchors to secure the spacesaver to the wall. This significantly improves stability.

- **Does Not Fit Over Toilet:**

- Confirm your toilet's height. The spacesaver requires 34.25 inches of clearance from the ground to the top of the toilet tank.
- Check if the toilet's water supply line or shut-off valve is obstructing the lower crossbar. Some units allow for adjustable positioning of this bar.

- **Shelves Seem Flimsy or Items Fall Through:**

- The shelves are wire-grate. For very small or unstable items, consider using storage baskets, trays, or solid shelf liners to provide a flat, stable surface.
- Ensure weight is distributed evenly and not concentrated in one small area.

## 8. WARRANTY AND SUPPORT

Zenna Home is committed to providing quality products. For specific warranty information, please refer to the documentation included with your purchase or visit the official Zenna Home website.

If you require assistance with assembly, have questions about your product, or need to report a defect, our customer support team is available to help. Please have your model number (2623NN) ready when contacting support.

### Contact Information:

For support, please refer to the contact methods provided on the Zenna Home official website or the packaging. Options may include live chat, phone, or email support.
