Festina F8840/3

Festina Men's F8840/3 Traditional Classic Timepiece User Manual

Model: F8840/3

1. INTRODUCTION

Thank you for choosing the Festina Men's F8840/3 Traditional Classic Timepiece. This manual provides essential information for the proper setup, operation, and maintenance of your watch. This classic timepiece features a durable stainless steel construction, a traditional design, and is water resistant.

Image 1.1: Festina Men's F8840/3 watch, front view.

Key features of your Festina F8840/3 watch include:

- Classic timepiece design.
- Stainless steel construction for durability.
- Bracelet style watch.
- Water resistant to 99 feet (30 meters).

2. SETUP

2.1 Setting the Time

1. Gently pull the crown (the small knob on the side of the watch case) out to the first position.
2. Rotate the crown clockwise or counter-clockwise to set the hour and minute hands to the correct time.
3. Once the time is set, push the crown back into its original position to start the watch movement.

2.2 Bracelet Adjustment

The stainless steel bracelet may require adjustment for a comfortable fit. This typically involves removing or adding links. It is recommended to have this procedure performed by a qualified watch technician or jeweler to prevent damage to the bracelet or clasp mechanism.

3. OPERATING THE WATCH

3.1 Timekeeping

Your Festina F8840/3 watch is powered by a reliable Quartz movement, ensuring accurate timekeeping. Once the time is set, the watch will continuously display the current time.

3.2 Water Resistance

This watch is water resistant to 99 feet (30 meters). This means it is designed to withstand splashes of water and rain. It is **not** suitable for showering, bathing, swimming, diving, or any activities involving submersion in water. Always ensure the crown is fully pushed in to maintain water resistance.

4. MAINTENANCE

4.1 Cleaning Your Watch

To maintain the appearance of your watch, wipe the case and bracelet regularly with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemicals or abrasive materials, as these can damage the watch's finish.

4.2 Battery Replacement

The Quartz movement is powered by a battery. When the watch stops running, it indicates that the battery needs to be replaced. It is recommended to have the battery replaced by a professional watchmaker to ensure proper sealing and maintain water resistance.

4.3 General Care

- Avoid exposing the watch to extreme temperatures or sudden temperature changes.
- Keep the watch away from strong magnetic fields, as these can affect the accuracy of the Quartz movement.
- Protect the watch from impacts and drops.

5. TROUBLESHOOTING

5.1 Watch Not Running

- **Check the crown:** Ensure the crown is fully pushed in. If it is pulled out, the watch will not run.
- **Battery:** The battery may be depleted. Refer to Section 4.2 for battery replacement.

5.2 Incorrect Time Display

- **Reset the time:** Follow the instructions in Section 2.1 to reset the time.
- **Magnetic interference:** If the watch has been exposed to strong magnetic fields, its accuracy might be affected. Keep it away from such sources.

If problems persist, please contact customer support or a qualified watch technician.

6. SPECIFICATIONS

Feature	Detail
Brand	Festina
Model Number	F8840/3
Case Diameter	39 Millimetres
Case Thickness	8 Millimetres
Band Material	Stainless Steel
Band Colour	Silver
