

## WORX WG430

# WORX WG430 13 Amp Electric Leaf Mulcher Instruction Manual

Comprehensive guide for the assembly, operation, and maintenance of your WORX WG430 Electric Leaf Mulcher.

## 1. IMPORTANT SAFETY INFORMATION

Read all safety warnings and instructions before operating this product. Failure to follow the warnings and instructions may result in electric shock, fire, and/or serious injury.

- Always wear eye protection and hearing protection when operating the mulcher.
- Wear heavy-duty gloves to protect hands.
- Do not operate the mulcher in wet conditions or rain.
- Ensure the work area is clear of bystanders, children, and pets.
- Always disconnect the power supply before performing any maintenance or clearing blockages.
- This product can expose you to chemicals including lead and Di(2-ethylhexyl)phthalate (DEHP) which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## 2. PRODUCT OVERVIEW

The WORX WG430 Electric Leaf Mulcher is designed to reduce the volume of leaves and yard debris, converting them into mulch. This unit features a 13 Amp motor and a bladeless flex-a-line mulching system.

Figure 1: Fully assembled WORX WG430 Electric Leaf Mulcher. The unit consists of a black hopper, an orange motor housing, and a white metal stand.

### 3. ASSEMBLY INSTRUCTIONS

---

The WORX WG430 mulcher is designed for tool-less assembly. Follow these steps to set up your unit:

1. **Assemble the Stand:** Connect the stand components as per the diagrams in your physical manual. Ensure all connections are secure.
2. **Attach the Motor Housing:** Place the motor housing onto the assembled stand, ensuring it locks into place.
3. **Install the Hopper:** Secure the black hopper onto the top of the motor housing.
4. **Attach Bag Support Ring:** If using a collection bag, attach the bag support ring to the bottom of the motor housing.
5. **Install Cutting Lines:** The unit comes with pre-cut cutting lines. Refer to the maintenance section for detailed instructions on installing and replacing these lines.

Verify all parts are securely fastened before connecting to power.

## 4. OPERATING INSTRUCTIONS

Operating the WORX WG430 mulcher is straightforward. Always ensure safety precautions are followed.

1. **Prepare the Work Area:** Clear the area of any debris other than leaves. Ensure a stable, level surface for the mulcher.
2. **Connect Power:** Plug the mulcher into a suitable 120V AC power outlet using an appropriate outdoor-rated extension cord.
3. **Attach Collection Bag (Optional):** If desired, attach a collection bag (not included) to the bag support ring. The mulcher is designed to dispose of leaves directly into a bag.
4. **Start the Mulcher:** Locate the oversized ON/OFF switch and turn the unit ON. The motor will start, and the cutting lines will begin to spin.
5. **Feed Leaves:** Carefully feed dry leaves into the large feed hole of the hopper. Avoid overloading the unit. The mulcher can process up to 53 gallons of leaves per minute, reducing 11 bags of leaves into 1.
6. **Avoid Hard Objects:** Do not feed twigs larger than a pencil, rocks, or other hard objects into the mulcher, as this can damage the cutting lines and motor.
7. **Stop the Mulcher:** When finished or if a blockage occurs, turn the unit OFF using the ON/OFF switch and disconnect from power.

*Note: The mulcher performs best with dry leaves. Damp leaves may require more frequent cleaning of the tub.*

## 5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your WORX WG430 mulcher.

- **Cleaning:** After each use, disconnect the power and clean the hopper, motor housing, and cutting chamber. The design incorporates a dust-reducing clean air motor cooling system, but debris can still accumulate.
- **Cutting Line Replacement:** The mulcher uses an easy-to-change string system. When cutting lines show significant wear or breakage, replace them. The unit comes with 24 replacement lines.
  - a. Ensure the unit is unplugged.
  - b. Access the cutting head.
  - c. Remove the worn lines and thread new lines through the designated holes.
  - d. Ensure both ends of the new line are of equal length.
- **Storage:** For off-season storage, disassemble the unit (tool-less design allows for easy breakdown) and store it in a dry, protected area.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your mulcher.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Mulcher does not start.	No power supply; ON/OFF switch not engaged; circuit breaker tripped.	Check power connection and extension cord; ensure switch is fully ON; reset circuit breaker.
Poor mulching performance.	Worn or broken cutting lines; wet leaves; unit overloaded.	Replace cutting lines; ensure leaves are dry; feed leaves in smaller quantities.
Unit vibrates excessively.	Unbalanced cutting lines; debris caught in cutting mechanism.	Ensure cutting lines are properly installed and balanced; disconnect power and clear any obstructions.
Motor stops during operation.	Overload protection activated; blockage in the cutting chamber.	Turn OFF, unplug, clear blockage, wait a few minutes for motor to cool, then restart.

## 7. SPECIFICATIONS

- **Model:** WG430
- **Power:** 13 Amp Electric Motor
- **Mulch Ratio:** 11:1
- **Mulching Capacity:** Up to 53 gallons per minute
- **Cutting Diameter:** 13 inches
- **Item Weight:** 20 pounds
- **Product Dimensions:** 22.83 x 22.83 x 13.98 inches
- **Manufacturer:** Positec Technology (China) Co., Ltd

## 8. WARRANTY INFORMATION

WORX products are manufactured to high-quality standards. This product comes with a limited warranty.

- **Tool Warranty:** 3 Years Limited Warranty
- **Battery Warranty (if applicable):** 2 Years Limited Warranty

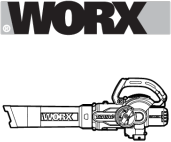

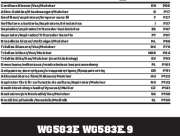

Figure 2: WORX Limited Warranty details, showing 3 years for the tool and 2 years for the battery.

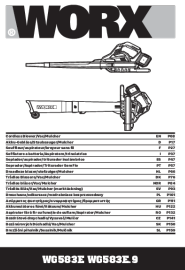

For detailed warranty terms and conditions, please refer to the warranty card included with your product or visit the official WORX website.

## 9. CUSTOMER SUPPORT

If you have any questions, require technical assistance, or need to order replacement parts, please contact WORX customer support. Refer to your product packaging or the official WORX website for the most current contact information.
