

HEWLETT PACKARD J9450A

HP Procurve 1810G-24 Switch (J9450A) User Manual

Model: J9450A

INTRODUCTION

The HP Procurve 1810G-24 Switch (J9450A) is a managed Gigabit Ethernet switch designed for small and medium-sized businesses. It provides reliable network connectivity with advanced features for enhanced performance and security. This manual provides essential information for the setup, operation, maintenance, and troubleshooting of your switch.

Figure 1: HP Procurve 1810G-24 Switch (J9450A) - Front Angled View

This image shows the overall design of the HP Procurve 1810G-24 Switch, highlighting its compact form factor and the arrangement of its ports and indicators.

PACKAGE CONTENTS

Verify that all items are present in the package:

- HP Procurve 1810G-24 Switch (J9450A)
- Power cable
- Rack-mount kit
- Console cable

SETUP

1. Physical Installation

The HP Procurve 1810G-24 Switch can be placed on a desktop or mounted in a standard 19-inch equipment rack using the included rack-mount kit.

1. **Rack Mounting:** Attach the rack-mount brackets to the sides of the switch using the provided screws. Secure the switch into the rack.
2. **Desktop Placement:** Ensure adequate ventilation around the switch. Do not block any ventilation openings.

2. Power Connection

Connect the provided power cable to the power inlet on the rear of the switch and then to a grounded AC power outlet. The switch will power on automatically.

Figure 2: Rear Panel of the Switch

This image displays the rear panel of the HP Procurve 1810G-24 Switch, showing the power input and product labels.

3. Network Connections

Connect your network devices (computers, servers, other switches) to the RJ45 ports on the front panel of the switch using standard Ethernet cables. The switch supports 10/100/1000 Mbps connections.

Figure 3: Front Panel of the Switch

This image provides a clear view of the front panel of the HP Procurve 1810G-24 Switch, detailing the 24 Gigabit Ethernet ports and indicator lights.

The switch also features dual-personality ports (ports 23 and 24) which can function as either 10/100/1000 RJ45 ports or mini-GBIC (SFP) slots for optional fiber connectivity (e.g., Gigabit-SX, -LX, -LH, or 100-FX).

Figure 4: Front Panel Indicators and Controls

This close-up image highlights the power indicator, fault locator, LED mode, and speed indicators on the front panel of the HP Procurve 1810G-24 Switch.

OPERATING THE SWITCH

Web Interface Management

The HP Procurve 1810G-24 Switch features an intuitive web-based management interface for configuration, monitoring, and administration. To access the web interface:

1. Ensure your computer is connected to the switch.
2. Open a web browser and enter the default IP address of the switch (refer to the product documentation or sticker for the default IP).
3. Log in using the default credentials (if applicable).
4. From the web interface, you can configure various settings, including:
 - **VLAN Support and Tagging:** Configure up to 64 port-based VLANs and dynamic IEEE 802.1Q VLAN tagging for network segmentation and security.
 - **Port Configuration:** Adjust port speed, duplex settings, and enable/disable ports.
 - **Link Aggregation:** Combine multiple ports for increased bandwidth and redundancy.
 - **Quality of Service (QoS):** Prioritize network traffic for critical applications.

LED Indicators

The front panel LEDs provide visual status of the switch and its ports:

- **Power LED:** Indicates power status.
- **Fault Locator LED:** Indicates system faults.
- **Link/Activity LEDs (per port):**
 - Solid Green: Link established.
 - Flashing Green: Activity on the port.
- **Speed LEDs (per port):**
 - Off: 10 Mbps
 - Flash: 100 Mbps
 - On: 1000 Mbps (Gigabit)

MAINTENANCE

The HP Procurve 1810G-24 Switch is designed for low maintenance. It operates without internal fans, contributing to a quiet environment and reduced dust accumulation.

- **Firmware Updates:** Periodically check the official HP website for firmware updates to ensure optimal performance and security. Follow the instructions provided with the firmware update package.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the switch. Do not use liquid or aerosol cleaners.
- **Ventilation:** Ensure that the ventilation openings are not obstructed to prevent overheating.

TROUBLESHOOTING

No Power

- Verify the power cable is securely connected to both the switch and the power outlet.
- Ensure the power outlet is functional by testing it with another device.

No Link Light on Port

- Check the Ethernet cable connection at both ends (switch and connected device).
- Try a different Ethernet cable.
- Test the port with a known working device.
- Ensure the connected device is powered on and functioning correctly.

Connectivity Issues After Power Failure

In some rare instances, the switch may not fully restore network connectivity to all ports immediately after a power outage. If this occurs:

- **Power Cycle:** Disconnect the power cable from the switch, wait for approximately 30 seconds, and then reconnect it.
- **Reseat Cables:** Physically disconnect and reconnect the Ethernet cables for affected devices.
- **Factory Reset:** If issues persist, a factory reset may be necessary. This will revert all settings to their default values. Consult the detailed product manual for the specific procedure, which often involves using a small pointed object (like a paperclip) to press a reset button.

Web Interface Inaccessible

- Verify your computer's IP address is in the same subnet as the switch's default IP address.
- Clear your browser's cache and cookies.

- Try a different web browser.
- Perform a factory reset if you have forgotten the login credentials or if the interface remains unresponsive.

SPECIFICATIONS

Feature	Description
Model Number	J9450A
Switch Type	Managed Gigabit Ethernet Switch
Number of Ports	24 (22 x 10/100/1000BASE-T, 2 x Dual-Personality 10/100/1000BASE-T or SFP)
Data Transfer Rate	1000 Megabits Per Second (Gigabit)
Interface Type	RJ45, SFP
Case Material	Metal
Dimensions (L x W x H)	17 x 7 x 2 inches (approximately)
Item Weight	5 pounds
Power Input	100-127V ~ 0.75A (0.75A), 200-240V ~ 0.4A (0.4A)
Operating Temperature	0°C to 40°C (32°F to 104°F)
Cooling	Fanless

J9450A

50 / 60 Hz

100 - 127 V ~ 0.75 A (0,75 A)

200 - 240 V ~ 0.4 A (0,4 A)

この装置は、クラスA 情報技術装置です。この装置を家庭環境で使用すると電波妨害を引き起こすことがあります。この場合には使用者が適切な対策を講ずるよう要求されることがあります。 VCCI-A

CAUTION: No operator serviceable parts inside. Refer servicing to qualified personnel.
ATTENZIONE: Non aprire. Rivolgersi a personale qualificato.
CUIDADO: Partes adentro no reparables por el operador. Refiera reparo a personal autorizado.
ATTENTION: Entretien et réparations internes ne sont autorisés qu'au personnel technique qualifié.
ACHTUNG: Zugang zur Bedienung nicht erforderlich. Wartung nur durch qualifiziertes Personal.
UWAGA: Nie zawiera żadnych części, które mogą być naprawiane przez użytkownika.
W celu naprawy zwróć się do wykwalifikowanego specjalisty.

注意: オペレータによる部品交換は故障のもとになります。適切な整備員が行うこと。
注意: 本产品内部不含任何可维修部件, 若需服务, 请与授权维修人员联系。

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

This Class A digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

警告使用者
這是甲類的資訊產品, 在居住的環境中使用時, 可能會造成射頻干擾, 在這種情況下, 使用者會被要求採取某些適當的對策。

WARRANTY AND SUPPORT

Warranty Information

The HP Procurve 1810G-24 Switch typically comes with a **Lifetime Replacement Warranty** for the original owner. Please refer to the official HP warranty documentation for complete terms and conditions, as warranty details may vary by region and purchase date.

Technical Support

For technical assistance, product registration, or to download the latest drivers and firmware, please visit the official HP support website. Have your product model number (J9450A) and serial number ready when contacting support.

You can typically find support resources at: www.hp.com/support
