Targus AMW50US

Targus AMW50US Wireless Mouse Instruction Manual

1. INTRODUCTION AND OVERVIEW

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Targus AMW50US Wireless Mouse. This mouse features BlueTrace Technology for precise tracking on various surfaces, an ergonomic design for comfort, and 2.4 GHz wireless connectivity for freedom of movement.

2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- Targus AMW50US Wireless Mouse
- Micro USB Receiver
- AAA Battery (Note: While product descriptions may vary, one AAA battery is typically required for operation. Some packages may include an Energizer battery.)

Image 2: Packaging for the Targus Wireless Mouse, showing the mouse and receiver.

3. SETUP

1. **Install Battery:** Open the battery compartment on the underside of the mouse. Insert one AAA battery, ensuring correct polarity (+/-). Close the compartment securely.
2. **Connect USB Receiver:** Locate an available USB port on your computer (PC or Mac). Insert the Micro USB Receiver into the USB port. Your computer should automatically detect and install the necessary drivers.
3. **Power On:** Turn on the mouse using the power switch located on its underside. The mouse is now ready for use.

4. OPERATING INSTRUCTIONS

The Targus AMW50US Wireless Mouse is designed for intuitive use:

- **Basic Functions:** Use the left and right buttons for clicking and the scroll wheel for navigating documents and web pages.
- **Adjustable DPI:** The mouse features adjustable DPI settings (800/1200/1600) to customize cursor sensitivity. Refer to your computer's mouse settings for adjustment options.
- **BlueTrace Technology:** This technology allows the mouse to track accurately on a wide variety of surfaces, including wood, granite, and carpet, offering versatile usage.
- **Wireless Range:** The 2.4 GHz wireless technology provides a reliable connection up to 33 feet (10 meters) from your computer.
- **Stow-N-Go USB Receiver:** For convenience during travel, the Micro USB receiver can be securely stored inside the mouse's battery compartment.

Image 5: Graphic illustrating key features: Windows/Mac compatibility, 2.4 GHz wireless technology, Stow-N-Go USB receiver, and adjustable DPI.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse. Avoid using harsh chemicals or abrasive materials.
- **Battery Replacement:** When the mouse performance degrades, replace the AAA battery. Ensure the power switch is off before replacing the battery.

- **Receiver Storage:** Always store the Micro USB receiver in its designated compartment on the underside of the mouse when not in use or during travel to prevent loss.

6. TROUBLESHOOTING

- **Mouse Not Responding:**
 - Ensure the mouse is powered on.
 - Check if the battery is correctly installed and has sufficient charge. Replace if necessary.
 - Verify the Micro USB receiver is securely plugged into a working USB port on your computer. Try a different USB port.
 - Restart your computer.
- **Intermittent Connection:**
 - Ensure the mouse is within the 33-foot (10-meter) operating range of the receiver.
 - Minimize obstructions between the mouse and the receiver.
 - Avoid using the mouse on highly reflective or transparent surfaces, which can interfere with tracking.
- **Cursor Movement is Erratic:**
 - Clean the optical sensor on the underside of the mouse.
 - Try using the mouse on a different surface or a mouse pad.
 - Adjust the DPI settings if available.

7. SPECIFICATIONS

Model Number	AMW50US
Brand	Targus
Connectivity Technology	Radio Frequency (2.4 GHz)
