Nuvo TP152

Nuvo Lighting TP152 Traditional Track Parts Instruction Manual

1. PRODUCT OVERVIEW

The Nuvo Lighting TP152 is a traditional track part designed for integration into a track lighting system. This component facilitates the connection and positioning of lighting fixtures on a compatible track, providing flexibility in illumination design. It features a white finish and is part of the Nuvo Lighting Track Parts Collection.

Model: TP152

Brand: Nuvo Lighting

Finish: White

2. SAFETY INFORMATION

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Always disconnect power at the circuit breaker before installing, servicing, or cleaning this product.
- Installation should be performed by a qualified electrician or a trained professional.
- Ensure all electrical connections comply with local codes and ordinances.
- Do not install this product in wet locations or areas exposed to excessive moisture.
- Verify that the voltage supply is compatible with the track lighting system.
- Do not exceed the maximum wattage rating of the track system or individual fixtures.
- Handle the product with care to avoid damage to electrical components.

Legal Disclaimer: Please check your local laws before purchasing and installing this product.

3. PACKAGE CONTENTS

Carefully unpack the product and ensure all items are present and undamaged. If any parts are missing or damaged, do not attempt to install and contact Nuvo Lighting customer support.

- 1 x Nuvo Lighting TP152 Traditional Track Part

4. SPECIFICATIONS

Specification	Detail
Model Number	TP152
Brand	Nuvo Lighting
Product Dimensions	1 x 1 x 1 inches
Item Weight	6.2 ounces
Finish	White
Style	Traditional
Bulb(s) Included	No
Manufacturer	Nuvo Lighting

5. SETUP AND INSTALLATION

This section provides general guidance for installing the Nuvo Lighting TP152 track part. Specific installation steps may vary depending on your existing track lighting system. Always refer to the instructions provided with your track system for detailed guidance.

5.1 Before Installation

- Turn off power at the main circuit breaker.
- Ensure the track system is securely mounted and properly wired according to electrical codes.
- Confirm compatibility between the TP152 track part and your track system.

5.2 Installing the Track Part

1. Align the electrical contacts of the TP152 track part with the corresponding slots in the track channel.
2. Insert the track part into the track channel.
3. Rotate the track part clockwise (or as indicated by your track system's design) until it locks securely into place. You should feel a click or firm resistance.
4. Ensure the track part is firmly seated and cannot be easily pulled out.
5. Once the track part is installed, you can attach a compatible lighting fixture to it. Refer to your fixture's instructions for attachment.

5.3 Post-Installation

- Once all track parts and fixtures are installed, restore power at the circuit breaker.
- Test the lighting system to ensure proper functionality.

6. OPERATING INSTRUCTIONS

The Nuvo Lighting TP152 track part itself does not have operational controls. Its function is to provide an electrical connection point for track lighting fixtures. Operation of the lighting system (e.g., turning lights on/off, dimming) is controlled by the wall switch, dimmer, or smart home system connected to your track lighting circuit.

- Ensure the track part is correctly installed and making proper electrical contact with the track.
- Operate your track lighting system using its designated controls.

7. MAINTENANCE

Regular maintenance helps ensure the longevity and safe operation of your Nuvo Lighting TP152 track part.

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the surface of the track part. Do not use abrasive cleaners, solvents, or polishes, as these can damage the finish.
- **Inspection:** Periodically inspect the track part for any signs of damage, loose connections, or discoloration. If any issues are observed, disconnect power and consult a qualified electrician.
- **Tightness:** Ensure the track part remains securely locked into the track channel. If it feels loose, disconnect power and re-seat it.

8. TROUBLESHOOTING

If you encounter issues with your Nuvo Lighting TP152 track part, refer to the following troubleshooting guide. Always disconnect power before performing any inspection or repair.

Problem	Possible Cause	Solution
Fixture connected to TP152 does not light up.	No power to the track.	Check the circuit breaker and wall switch. Ensure power is on.

Problem	Possible Cause	Solution
	TP152 not properly seated in the track.	Disconnect power, then re-seat the TP152 firmly into the track until it locks.
	Faulty bulb or fixture.	Test the bulb in another working fixture or replace it. Check the fixture itself.
TP152 feels loose in the track.	Improper installation or wear.	Disconnect power, remove the TP152, inspect for damage, and re-install it securely. If damage is present, replace the part.

If troubleshooting steps do not resolve the issue, contact a qualified electrician or Nuvo Lighting customer support.

9. WARRANTY AND SUPPORT

For warranty information, please refer to the documentation provided with your original purchase or visit the official Nuvo Lighting website. Nuvo Lighting stands behind the quality of its products.

For technical assistance, replacement parts, or any other inquiries, please contact Nuvo Lighting customer support. Contact details can typically be found on the manufacturer's website or product packaging.
