Fjällräven F23510

Fjällräven Kanken Classic Backpack F23510 User Manual

Model: F23510

1. PRODUCT OVERVIEW

The Fjällräven Kanken Classic Backpack is a durable and functional everyday backpack designed for versatility. Originally created in 1978 to address back problems among Swedish schoolchildren, its simple yet effective design has made it a timeless accessory suitable for various activities.

2. KEY FEATURES

- **Iconic Design:** Features the classic Kanken design since 1978, including a main zippered compartment, front zippered pocket, and two open side pockets.
- **Durable Material:** Constructed from Vinyon F, a dirt-resistant, water-resistant fabric that is easy to wipe clean.
- **Functional Storage:** Offers a two-way zipper with a rain flap for protection, ergonomic shoulder straps, dual top snap handles for quick carrying, and a removable sitting pad.
- **Spacious Capacity:** Provides 16 liters of storage space, measuring 14.9" (38 cm) x 10.6" (27 cm) x 5.1" (13 cm) and weighing 0.7 lb.
- **Reflective Logo:** Includes a reflective logo for enhanced visibility.

3. SETUP AND ADJUSTMENT

3.1 Shoulder Straps

The backpack features adjustable shoulder straps for comfortable carrying. To adjust, simply slide the buckles on the straps to lengthen or shorten them until the backpack sits comfortably on your back. The straps are designed to distribute weight effectively.

3.2 Top Handles

For quick carrying, the backpack includes dual top snap handles. These handles can be snapped together to provide a secure grip when carrying the backpack by hand.

4. OPERATING AND STORAGE

4.1 Main Compartment

The main compartment features a two-way zipper that extends along three sides, allowing the entire front of the backpack to open. This wide opening provides easy access to contents and simplifies packing and unpacking. A rain flap covers the zipper for added weather protection.

4.2 Front Pocket

A zippered front pocket is ideal for smaller items that require quick access, such as keys, pens, or a phone.

4.3 Side Pockets

Two open side pockets are suitable for items like water bottles, umbrellas, or other small essentials. Note that the fit for larger water bottles may vary depending on the bottle's diameter.

4.4 Removable Seat Pad

Inside the main compartment, against the back panel, you will find a removable foam pad. This pad serves two purposes: it provides cushioning for your back when carrying the backpack and can be removed and used as a portable seat cushion for outdoor activities.

5. MAINTENANCE AND CARE

The Kanken backpack is made from Vinyon F fabric, known for its durability and water-resistant properties. To maintain your backpack:

- **Cleaning:** For dirt and stains, gently wipe the affected area with a soft cloth dampened with lukewarm

water and mild soap. Avoid harsh detergents or abrasive cleaners.

- **Drying:** Allow the backpack to air dry completely. Do not tumble dry or use direct heat, as this can damage the fabric.
- **Storage:** Store the backpack in a cool, dry place away from direct sunlight when not in use.
- **Avoid Washing Machine:** Do not machine wash the backpack, as this can compromise its water-resistant coating and overall structure. Remove the foam seat pad before any extensive cleaning.

6. TROUBLESHOOTING

- **Stains:** For stubborn stains, try a specialized fabric cleaner suitable for synthetic materials, testing on an inconspicuous area first.
- **Zipper Issues:** If zippers become stiff, apply a small amount of zipper lubricant or graphite from a pencil to the teeth.
- **Fading:** Over extended periods of sun exposure, some color fading may occur, especially with darker colors. This is a natural characteristic of the fabric and not a defect.

7. SPECIFICATIONS

Model Number:	F23510
Product Dimensions:	4.92 x 11.02 x 13.98 inches
Weight:	10.6 ounces (0.7 lb)
Capacity:	16 Liters
Material:	Vynylon F (Synthetic-and-fabric)
Water Resistance Level:	Water Resistant
Manufacturer:	Fjallraven
