## THERMOS Stainless King Travel Tumbler

# THERMOS Stainless King 16 oz Vacuum-Insulated Travel Tumbler

MODEL: STAINLESS KING TRAVEL TUMBLER (MIDNIGHT BLUE)

Your guide to optimal use and care.

## 1. Introduction and Product Overview

The THERMOS Stainless King 16-ounce Vacuum-Insulated Travel Tumbler is engineered for superior temperature retention, keeping your beverages hot or cold for extended periods. Its durable stainless steel construction and thoughtful design make it an ideal companion for daily commutes, outdoor adventures, or office use. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your tumbler to ensure long-lasting performance.

### **Key Features:**

- **THERMOS Vacuum Insulation Technology:** Ensures maximum temperature retention, keeping beverages hot for up to 7 hours and cold for up to 18 hours.
- **Durable Construction:** Made with high-quality 18/8 stainless steel for reliability in various environments.
- **Sweat-Proof Exterior:** Stays cool to the touch with hot liquids and condensation-free with cold beverages.
- **Leak-Proof DrinkLock Sealing Lid:** Provides peace of mind when closed, preventing spills.
- **Integrated Tea Hook:** Conveniently holds tea bags or most loose leaf infusers.
- **Easy to Clean:** Lid disassembles for thorough cleaning.
- **Car Cup Holder Compatible:** Contoured body design fits most automobile cup holders.

## 2. Setup

---

Before first use, and after each use, thoroughly wash all parts of the tumbler with warm, soapy water. Rinse thoroughly and allow to dry completely. This ensures optimal hygiene and prevents residue buildup.

## 3. Operating Instructions

---

### Filling Your Tumbler:

1. Unscrew the lid from the tumbler body.
2. Fill the tumbler with your desired beverage. Do not overfill; leave space for the lid.
3. Securely screw the lid back onto the tumbler body until it is tight.

### Using the DrinkLock Sealing Lid:

- To **open** the drinking spout, push the lever 45 degrees to the right or left.
- To **close** the drinking spout and ensure a leak-proof seal, push the lever back to the center position.

### Maximizing Temperature Retention:

For best results, pre-chill or pre-heat your tumbler just prior to use:

- **For hot beverages:** Fill the tumbler with hot tap water, attach the lid, and let it rest for a few minutes. Empty the water before filling with your hot beverage.
- **For cold beverages:** Fill the tumbler with cold tap water or ice, attach the lid, and let it rest for a few minutes. Empty the water/ice before filling with your cold beverage.

## 4. Maintenance and Cleaning

---

Regular cleaning is essential to maintain hygiene and the performance of your THERMOS tumbler. Hand washing is recommended for optimal care and longevity. The lid is designed for easy disassembly to facilitate thorough cleaning.

### Cleaning the Lid:

1. Unscrew the lid from the tumbler body.
2. Locate the DrinkLock lever on the lid. Twist the central part of the lever to detach it from the lid assembly.

- Carefully remove any rubber gaskets or seals.
- Wash all disassembled parts with warm, soapy water. Use a small brush to clean hard-to-reach areas and ensure no residue remains, especially if using coffee or tea.
- Rinse all parts thoroughly and allow them to air dry completely before reassembling.
- Reassemble the lid by reversing the disassembly steps, ensuring all seals and the lever are correctly in place.

### Cleaning the Tumbler Body:

- Wash the interior and exterior of the tumbler body with warm, soapy water.
- Use a bottle brush for thorough cleaning of the interior.
- Rinse thoroughly and allow to air dry.

## 5. Troubleshooting

- Reduced Temperature Retention:** Ensure the lid is securely closed and the tumbler was pre-heated or pre-chilled as recommended. Check for any damage to the vacuum seal.
- Leaking:** Verify the DrinkLock lever is in the fully closed position. Check that the lid is screwed on tightly and that all rubber gaskets/seals are properly seated and undamaged.
- Difficulty Cleaning:** Disassemble the lid as shown in the maintenance section and use a small brush for intricate parts. Soaking in warm, soapy water can help loosen stubborn residue.
