## SETUP AND FIRST USE

The Kent PF21 brush comes ready for immediate use. No assembly is required. Simply unbox the brush and it is ready to be incorporated into your hair care routine.

### Unboxing

1. Carefully remove the brush from its packaging.
2. Inspect the brush for any visible damage. If damaged, contact customer support.
3. Recycle packaging materials according to local guidelines.

## OPERATING INSTRUCTIONS

The Kent PF21 brush is designed for both detangling and general hair grooming. Follow these steps for optimal results:

### For Detangling Hair

1. Begin brushing from the ends of your hair, working your way up towards the roots.
2. Use gentle, short strokes to work through tangles. The ball-tipped nylon quills are designed to minimize pulling.
3. For very tangled hair, consider using a detangling spray or conditioner on wet hair before brushing.

### For Scalp Massage and Oil Distribution

1. Brush your hair from root to tip, allowing the bristles to gently massage your scalp.
2. This action helps to distribute natural oils from your scalp throughout your hair, adding shine and nourishment.

## CARE AND MAINTENANCE

Proper care will extend the life of your Kent PF21 brush and maintain its performance.

### Cleaning Your Brush

1. **Remove Loose Hair:** Regularly remove any loose hair caught in the bristles using your fingers or a comb.
2. **Gentle Wash:** For a deeper clean, gently wash the bristles with lukewarm water and a mild shampoo. Avoid submerging the wooden handle in water for extended periods.
3. **Rinse and Dry:** Rinse thoroughly and shake off excess water. Allow the brush to air dry completely with the bristles facing downwards to prevent water from pooling in the cushion.

### Storage

Store your brush in a dry place away from direct sunlight or excessive heat, which can damage the wood and bristles.
