Tupperware Tiwi Baby Bear One Touch 3 Piece Canister Set

Tupperware Tiwi Baby Bear One Touch 3 Piece Canister Set

Instruction Manual

INTRODUCTION

This manual provides instructions for the proper use and care of your Tupperware Tiwi Baby Bear One Touch 3 Piece Canister Set. This set includes three storage containers with capacities of 5 cup, 8 cup, and 12 cup, each featuring a One Touch seal for secure storage.

SETUP

1. **Unpacking:** Carefully remove all canisters and seals from their packaging.
2. **Initial Cleaning:** Before first use, wash all components (canisters and seals) with warm, soapy water. Rinse thoroughly and dry completely.

OPERATING INSTRUCTIONS

- The Tiwi Baby Bear canisters are designed for convenient and secure storage of various items, including baby formula, cereal, and snacks. The One Touch seal mechanism ensures a virtually liquid-tight and air-tight closure.
- **Filling:** Fill the canister with your desired contents, ensuring not to overfill. Leave a small space at the top for the seal.
 - **Sealing:** Place the One Touch seal onto the rim of the canister. Press firmly in the center of the seal until you hear a click, indicating a secure, air-tight closure.
 - **Opening:** To open, press firmly in the center of the seal and lift the edge of the seal to release the vacuum. Then, pull the seal off the canister.

MAINTENANCE

- **Cleaning:** Wash canisters and seals by hand with warm, soapy water. Avoid abrasive cleaners or scouring pads, which can scratch the surface. Rinse thoroughly and dry completely before storing.
- **Dishwasher Use:** While Tupperware products are generally dishwasher safe, hand washing is recommended to preserve the longevity of the product's finish and seal integrity. If using a dishwasher, place on the top rack.
- **Storage:** Store canisters with seals removed or loosely placed to allow air circulation and prevent odors.

TROUBLESHOOTING

- **Seal Difficulty:** If the seal is difficult to apply or remove, ensure the rim of the canister and the seal are clean and dry. A small amount of food-safe cooking oil applied to the rim can sometimes help.
- **Odor Retention:** To remove lingering odors, wash the canister and seal thoroughly. For stubborn odors, create a paste of baking soda and water, apply it to the interior, let it sit for several hours, then wash and rinse.
- **Staining:** Certain foods, especially those with strong pigments like tomato sauce, may cause staining. Wash promptly after use to minimize staining. Sun exposure can sometimes help reduce stains.
