Figure 1.2: Visual representation highlighting the product's benefits for volume, body, and thicker-looking hair.

Figure 1.3: Indication that the product is Paraben & Gluten Free.

2. SETUP AND PREPARATION

Before applying the CHI Volume Booster Liquid Bodifying Glaze, ensure your hair is properly prepared for optimal results.

1. **Wash Hair:** Begin by washing your hair with your preferred shampoo and conditioner.
2. **Towel Dry:** Gently towel dry your hair until it is damp, not dripping wet. The product works best on damp hair.
3. **Detangle:** Comb through your hair to remove any tangles, ensuring even product distribution.

3. OPERATING INSTRUCTIONS (APPLICATION)

Follow these steps for effective application of the Volume Booster Liquid Bodifying Glaze:

1. **Shake Well:** Shake the bottle well before each use to ensure the ingredients are thoroughly mixed.
2. **Apply to Damp Hair:** Spray the glaze evenly throughout damp hair, focusing on the roots for maximum lift and volume.

- 3. **Distribute:** Use a comb or your fingers to distribute the product from roots to ends, ensuring full coverage.
- 4. **Style as Desired:** Blow-dry your hair using a round brush to create desired volume and style. For extra body, lift sections of hair at the roots while drying.
- 5. **Finish:** Once dry, style your hair as usual. The glaze provides a flexible hold without stiffness.

Tip: For fine hair, start with a small amount and add more if needed to avoid weighing down the hair.

4. MAINTENANCE AND CARE

Proper storage and care will help maintain the effectiveness and shelf life of your CHI Volume Booster Liquid Bodifying Glaze.

- **Storage:** Store the product in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cap Securely:** Always ensure the cap is securely closed after each use to prevent evaporation and contamination.
- **Avoid Freezing:** Do not allow the product to freeze, as this may alter its consistency and effectiveness.
- **Clean Nozzle:** If the spray nozzle becomes clogged, rinse it under warm water to clear any residue.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Hair feels sticky or stiff.	Too much product applied.	Reduce the amount of product used. Ensure even distribution.
Not enough volume.	Insufficient product at roots; hair too wet.	Apply more product directly to the roots. Ensure hair is damp, not soaking wet. Use a round brush while blow-drying.
Product nozzle is clogged.	Product residue buildup.	Remove the nozzle and rinse it thoroughly under warm water.
