## Key Features:

- **Jumping Frog Design:** Classic and recognizable frog shape.
- **Assorted Colors:** Each pack contains frogs in a variety of colors for diverse play.
- **Durable Plastic:** Made from soft, pliable plastic for repeated use.
- **Simple Mechanism:** Easy to activate jumping action.

## 2. SETUP

The U.S. Toy Jumping Frogs require minimal setup. Simply remove the frogs from their packaging. No assembly or batteries are required.

### Preparation:

1. Unpack all 36 jumping frogs from their container.
2. Ensure the play surface is flat and clear of obstructions for optimal jumping performance. Hard, smooth surfaces are recommended over carpeted areas.

### 3. OPERATING INSTRUCTIONS

---

Operating the U.S. Toy Jumping Frogs is straightforward and intuitive.

#### How to Make a Frog Jump:

1. Place a jumping frog on a flat, stable surface.
2. Locate the small tab or "tail" at the rear of the frog, between its back legs.
3. Using your thumb or finger, firmly press down on this tab.
4. Quickly release the pressure. The frog will spring forward or upward.

Experiment with different amounts of pressure and release speeds to achieve varying jump heights and distances.

### 4. CARE & MAINTENANCE

---

Proper care will ensure the longevity of your U.S. Toy Jumping Frogs.

- **Cleaning:** To clean the frogs, wipe them with a damp cloth and mild soap if necessary. Rinse thoroughly and air dry. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the frogs in a cool, dry place away from direct sunlight to prevent material degradation. A resealable bag or small container is ideal for keeping them together.
- **Handling:** While durable, avoid excessive bending or twisting of the frogs, especially the jumping mechanism, to prevent damage.

### 5. TROUBLESHOOTING

---

The U.S. Toy Jumping Frogs are simple in design, but here are some common issues and their solutions:

Problem	Possible Cause	Solution
Frog does not jump or jumps weakly.	Insufficient pressure applied to the tab, or tab is not fully released. Play surface is too soft (e.g., carpet).	Ensure firm pressure is applied to the tab and released quickly. Try playing on a hard, flat surface like a table or hardwood floor.
Frog appears damaged (e.g., missing parts).	Manufacturing defect or rough handling.	Inspect the frog upon receipt. If significantly damaged, contact the retailer for a replacement. Minor cosmetic imperfections typically do not affect functionality.
