INTRODUCTION

This manual provides detailed information regarding your WCCF0405 Ivan Cordoba player card. It covers the card's features, how to interpret its statistics, and guidelines for proper handling and storage to ensure its longevity and optimal use within the World Club Champion Football (WCCF) game.

The WCCF series is a collectible card game developed by SEGA, where players manage a football team using physical player cards. Each card represents a real-life football player with unique attributes and abilities.

CARD OVERVIEW AND SETUP

Upon acquiring your WCCF0405 Ivan Cordoba card, ensure it is free from any physical damage. This card is part of the 2004-2005 WCCF series, identified by the '04-05' in its model number.

- Series:** WCCF 2004-2005

OPERATING THE CARD (IN-GAME USAGE)

The WCCF game involves placing physical cards on a specialized arcade machine or compatible device. The machine reads the card's data, allowing the player to be used in matches. Understanding the card's statistics is crucial for effective gameplay.

It provides more detailed player information, including birthdate, height, weight, and a tactical grid indicating his preferred defensive positions. Below this, a comprehensive breakdown of his in-game stats is presented, along with the card's unique identifier (114/224) and the PANINI logo.

The back of the card provides detailed player attributes:

Ivan Cordoba Player Statistics

Attribute	Value
Offence	7
Defence	17
Technique	13
Power	14

Attribute	Value
Speed	18
Stamina	16
Total Ability	85

Ivan Cordoba is primarily a defender (DF). His high Defence (17) and Speed (18) attributes make him effective in stopping opposing attacks and covering ground quickly. His Power (14) also contributes to his defensive capabilities. Players should position him strategically in defensive roles within the WCCF game formation to maximize his impact.

MAINTENANCE AND CARE

To preserve the condition and functionality of your WCCF card, follow these guidelines:

- **Storage:** Store the card in a protective sleeve or binder to prevent scratches, bends, and dust accumulation. Avoid direct sunlight and extreme temperatures.
- **Handling:** Handle the card by its edges to avoid leaving fingerprints or smudges on the surface.
- **Cleaning:** If necessary, gently wipe the card with a soft, dry, lint-free cloth. Do not use abrasive cleaners or liquids.
- **Avoid Bending:** Do not bend or crease the card, as this can damage the internal data chip (if present in this specific card type) and render it unreadable by the game machine.

TROUBLESHOOTING

While physical trading cards generally do not have "troubleshooting" issues in the electronic sense, common problems relate to physical damage affecting playability:

- **Card Not Recognized:** If the WCCF game machine fails to read the card, inspect the card for visible damage, especially to the magnetic strip or embedded chip area (if applicable). Ensure the card is clean and properly inserted into the card reader.
- **Physical Damage:** Bends, tears, or significant scratches can permanently damage the card. Prevention through proper handling and storage is the best solution.

If the card is severely damaged and unreadable, it may need to be replaced. Contact the card manufacturer or a reputable card dealer for options.
