Quorum International 6-3659

Quorum International 36-inch Universal Downrod (Model 6-3659) User Manual

Essential instructions for installation, operation, and maintenance of your Quorum International downrod.

1. Product Overview

The Quorum International 36-inch Universal Downrod, Model 6-3659, is designed to extend the mounting height of your ceiling fan, ensuring optimal air circulation and aesthetic integration into rooms with high ceilings. This downrod features a durable construction with a matte black finish, providing both functionality and a sleek appearance.

- **Downrod from the Downrods collection:** Specifically designed for ceiling fan applications.
- **Item Size: Length: 36.00 inches, Width: 0.75 inches:** Provides significant extension for ceiling fans.
- **Light Type: Downrod:** Functions as a structural component for ceiling fan installation.
- **Finish: Matte Black:** Offers a contemporary and versatile aesthetic.
- **Safety Listing: Dry:** Suitable for dry indoor locations.

2. Safety Information

Read and understand all instructions before beginning installation. Failure to follow these instructions may result in electric shock, fire, or serious personal injury.

- Always disconnect power at the circuit breaker or fuse box before beginning installation or performing any

maintenance.

- Consult a qualified electrician if you are unsure about wiring or electrical connections.
- Ensure the mounting structure can support the weight of the ceiling fan and downrod assembly.
- Use only parts supplied by the manufacturer or specifically designed for use with this downrod.
- Do not bend or modify the downrod.

3. Package Contents

Verify that all components are present before proceeding with installation. If any parts are missing or damaged, contact Quorum International customer support.

- One (1) 36-inch Universal Downrod (Matte Black)
- *Note: Additional fasteners or pins required for fan attachment are typically supplied with the ceiling fan itself.*

4. Setup and Installation

This downrod is designed for use with compatible ceiling fans. Professional installation is recommended to ensure proper and safe operation.

Installation Steps:

1. **Prepare the Ceiling Fan:** Refer to your ceiling fan's instruction manual for specific guidance on preparing the fan for downrod installation. This typically involves removing any pre-installed short downrods or mounting brackets.
2. **Route Wiring:** Carefully feed the electrical wires from the ceiling fan motor through the center of the 36-inch downrod. Ensure wires are not pinched or damaged.
3. **Secure Downrod to Fan:** Insert the top end of the downrod into the fan's motor housing. Align the holes in the downrod with the holes in the fan's mounting yoke. Insert the provided pin (usually from the fan's hardware kit) through these holes and secure it with a cotter pin or screw, as per your fan's instructions.
4. **Attach Canopy:** Slide the fan canopy (if not already attached) down the downrod towards the fan motor.
5. **Mount to Ceiling:** Follow your ceiling fan's instructions to mount the fan and downrod assembly to the ceiling mounting bracket. Ensure all connections are secure and electrical wiring is properly connected and insulated.
6. **Final Checks:** Before restoring power, double-check all connections and ensure the downrod is firmly seated and secured.

5. Operating Instructions

The Quorum International 36-inch Universal Downrod is a static component that facilitates the proper positioning of your ceiling fan. Once installed, its function is to maintain the fan at the desired distance from the ceiling, allowing for effective air movement and clearance. There are no operational controls directly associated with the downrod itself; fan operation is controlled by the ceiling fan's switches or remote control.

6. Maintenance

Regular maintenance helps ensure the longevity and safe operation of your downrod and ceiling fan assembly.

- **Cleaning:** Wipe the downrod with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the matte black finish.
- **Inspection:** Periodically check the downrod and its connections to the ceiling fan and mounting bracket for any signs of looseness, wear, or damage. Ensure all pins and screws are tight.
- **Dusting:** Dust the downrod regularly to prevent buildup, which can affect its appearance.

7. Troubleshooting

If you encounter issues, consider the following common troubleshooting steps. For complex problems, consult a qualified technician.

- **Fan Wobbling:** Ensure the downrod is securely fastened to both the fan motor and the ceiling mounting bracket. Check for balanced fan blades.
- **Noise from Downrod Area:** Verify that all connections are tight and that no wires are rubbing against the downrod or canopy.
- **Downrod Appears Loose:** Disconnect power and re-tighten all securing pins and screws connecting the downrod to the fan and mounting hardware.

8. Specifications

Feature	Specification
Brand	Quorum International
Model Name	Downrod
Part Number	642615
Item Model Number	6-3659
Product Dimensions	0.75"W x 36"H
Item Weight	1.6 pounds
Color	Matte Black
Material	Metal
Specific Uses For Product	General Purpose (Ceiling Fan Extension)
Safety Listing	Dry
Number of Items	1
UPC	190808042347

9. Warranty and Support

The manufacturer's warranty for this product is N/A as per available information. For any questions, technical assistance, or to report missing/damaged parts, please contact Quorum International customer support directly. Refer to the official Quorum International website for the most current contact information and warranty details.

Online Support: Visit the Quorum International Store on Amazon for product information and links to official resources.

Ask a question about this manual
