

Novus PC-20

NOVUS 7030 Fine Scratch Remover #2 Instruction Manual

Model: PC-20

1. INTRODUCTION

The NOVUS 7030 Fine Scratch Remover #2 is a high-quality solution designed to eliminate fine scratches, haziness, and abrasions from most plastic surfaces. Unlike products that merely fill in scratches, NOVUS #2 actively removes them, restoring the original appearance and clarity to your plastics. This product is ideal for a wide range of applications, from automotive components to household items and hobby materials.

2. SAFETY INFORMATION

Please read and understand all safety warnings before using this product. Failure to follow these instructions may result in injury or damage.

- **CAUTION: EYE IRRITANT.** Do not swallow. Do not get in eyes. KEEP OUT OF REACH OF CHILDREN.
- Wear safety glasses and chemical resistant gloves during application.
- **FIRST AID TREATMENT:**
 - If swallowed, call a Poison Control Center or doctor immediately. Do not induce vomiting.
 - If in eyes, rinse with water for 15 minutes.
 - If on skin, rinse well with water.
- **WARNING:** This product can expose you to Silica, respirable crystalline, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.
- **Notice:** NOVUS #2 Fine Scratch Remover is not recommended for use on coated plastics, UV-protected surfaces, or eyeglass lenses. This will permanently damage items it is not intended for.

3. PRODUCT FEATURES

NOVUS #2 Fine Scratch Remover offers several key benefits for plastic restoration:

- **Effective Scratch Removal:** Specifically formulated to remove fine scratches and abrasions, rather than just filling them in.
- **Restores Clarity:** Brings back the original appearance and optical clarity to plastics that have become hazy or discolored.

- **Versatile Application:** Suitable for a wide range of plastic surfaces, including those found in:
 - **Automotive:** Auto headlamps, motorcycle windshields, golf cart windshields, dashboards.
 - **Marine:** Boat windows, jet ski surfaces.
 - **Household & Hobbies:** CD/DVDs, electronics, aquariums, gaming consoles, turntables, plastic furniture, protective shields.
- **Water-Based & Nontoxic:** A safer choice for various applications.

4. USAGE INSTRUCTIONS

4.1. Preparation (Setup)

1. **Shake Well:** Ensure the product is thoroughly mixed before use.
2. **Test Area:** Always test in an inconspicuous area first to ensure compatibility and desired results.
3. **Clean Surface:** Remove all surface dust and debris with a clean, soft cloth. For optimal results and to repel dust and eliminate static, consider using [NOVUS Plastic Polish #1: Clean, Shine & Protect](#) as a preparatory step.

4.2. Operating (Application)

Follow these steps for effective scratch removal:

1. Apply NOVUS #2 polish to a clean, soft cloth.
2. Using a firm, circular motion, rub the polish onto the scratched area until the polish dries to a haze.
3. Using a separate clean, soft cloth, buff the surface thoroughly until it shines.
4. Repeat the application and buffing process as necessary until the scratches are removed and the desired clarity is achieved.

Image: The 3-step NOVUS polishing system, highlighting the role of Fine Scratch Remover #2.

Image: Visual demonstration of plastic restoration using NOVUS polish.

5. MAINTENANCE

To maintain the restored clarity and protect your plastic surfaces from dust and static, regularly use [NOVUS Plastic Polish #1: Clean, Shine & Protect](#). This product helps to keep surfaces clean, repel dust, and eliminate static, extending the life and appearance of your plastics.

6. TROUBLESHOOTING

If you encounter difficulties or persistent scratches, consider the following:

- **Deep Scratches:** If fine scratches persist or if you are dealing with deeper abrasions, NOVUS #2 may not be sufficient. For heavier scratches, try [NOVUS Plastic Polish #3: Heavy Scratch Remover](#). Remember to follow up with NOVUS #2 after using #3 to achieve a smooth, clear finish.
- **Hazy Residue:** Ensure you are buffing thoroughly with a clean, soft cloth until the surface is completely dry and clear. Repeat buffing if necessary.
- **Product Clogging:** If the nozzle becomes clogged with dried product, clear it carefully before use.
